Title

"The Effects of Technology on Student Learning" by Dr. Emily Johnson

Introduction

In the article "The Effects of Technology on Student Learning," Dr. Emily Johnson explores how various technological advancements have influenced student engagement, comprehension, and overall academic success. The article focuses on both the advantages and disadvantages of incorporating technology into educational settings. Dr. Johnson aims to highlight how technology can be both a tool for improvement and a source of distraction. This critique evaluates the article's structure, use of evidence, argument development, and overall effectiveness in conveying its intended message.

Summary

Dr. Johnson begins the article by discussing the growing presence of technology in classrooms, mentioning devices like tablets, laptops, and smartboards. She presents several case studies demonstrating increased student participation when interactive tools are employed. For example, one study cited in the article shows that classrooms using interactive whiteboards saw a 15% improvement in student test scores over a semester. Johnson also references surveys conducted among high school students, indicating that over 70% felt more engaged when lessons included digital tools.

The article further explores the potential drawbacks of technology use in education. Johnson emphasizes that while technology can enhance learning, excessive use may lead to distractions, particularly with the accessibility of social media and gaming apps. Another concern she raises is the digital divide, noting that students from low-income families often lack access to the same technological resources as their peers. To illustrate this, the article includes data showing that schools in wealthier districts have a higher student-to-device ratio compared to those in
