# The Ultimate TCFP Hazmat Awareness / Hazmat Ops Study Guide

If, in using the Emergency Response Guidebook, a first responder discovers the entry for the material in question is highlighted and there is no fire involved, the first responder should go directly to the:

- A. yellow-bordered section.
- B. blue-bordered section.
- C. green-bordered section.
- D. table of placards. - correct answer C. green-bordered section.

The mission of the first responder trained to the awareness level includes all of the following except:

- A. recognizing the presence of hazardous materials.
- B. surveying the incident from a close proximity to determine the identity of the material involved.
- C. isolating the area of the emergency and preventing entry by unauthorized persons.
- D. calling for the appropriate help to mitigate the incident. - correct answer B. surveying the incident from a close proximity to determine the identity of the material involved.

First responders trained to the Awareness level have the ability to:

- A. select and use proper PPE.
- B. implement basic decontamination measures.
- C. realize the need for additional resources and make the appropriate notifications.
- D. apply basic hazard and risk assessment techniques. - correct answer C. realize the need for additional resources and make the appropriate notifications.

The isolation distance in the numbered guides is to be used:

- A. whenever the index entry is highlighted.
- B. whenever the entry is identified as a toxic inhalation hazard.
- C. whenever the entry is identified as a dangerous water reactive material.

**Energy Research Abstracts** ,1990      Advanced Technologies and Methodologies for Risk Management in the Global Transport of Dangerous Goods C. Bersani,A. Boulmakoul,E.

Garbolino,2008-09-23 In the last few years logistics has become a strategic factor for development and competition In fact research and development activities have traditionally faced the management of supply chain and international transport focussing on two main aspects speed and efficiency However several vulnerabilities have recently been highlighted under a safety and security viewpoint The weakness of the logistic chains has become more evident with the beginning of the new millennium Terrorist attacks such as the 11th of September 2001 in the USA have caused the introduction of new rules and procedures which affect the overall logistics showing the vulnerability of the global economy So nowadays it would appear anachronistic to carry out an exhaustive research activity on the supply chain with no relation to the various typologies of risk which may affect it This book aims to effectively represent the current status of research on dangerous goods transport
