Proportionality and Facts in Constitutional Adjudication Anne Carter,2022-01-27 This book considers the

relationship between proportionality and facts in constitutional adjudication Analysing where facts arise within each of the three stages of the structured proportionality test suitability necessity and balancing it considers the nature of these facts vis vis the facts that arise in the course of ordinary litigation The book s central focus is on how proportionality has been applied by courts in practice and it draws on the comparative experience of four jurisdictions across a range of legal systems The central case study of the book is Australia where the embryonic and contested nature of proportionality means it provides an illuminating study of how facts can inform the framing of constitutional tests The rich proportionality jurisprudence from Germany Canada and South Africa is used to contextualise the approach of the High Court of Australia and to identify future directions for proportionality in Australia at a time when the doctrine is in its formative stages The book has three broad aims First it considers the role of facts within proportionality reasoning Second it offers procedural insights into fact finding in constitutional litigation Third the book s analysis of the dynamic Australian case law on proportionality means it also serves to clarify the nature and status of proportionality in Australia at a critical moment Since the 2015 decision of *McCloy v New South Wales* where four justices supported the introduction of a structured three part test of proportionality the Court has continued to disagree about the utility of such a test These developments mean that this book with its doctrinal and comparative approach is particularly timely

Making One's Way in the World Martin Bell, 2020-02-28 The book draws on the evidence of landscape archaeology palaeoenvironmental studies ethnohistory and animal tracking to address the neglected topic of how we identify and interpret past patterns of movement in the landscape It challenges the pessimism of previous generations which regarded prehistoric routes such as hollow ways as generally undatable The premise is that archaeologists tend to focus on sites while neglecting the patterns of habitual movement that made them part of living landscapes Evidence

of past movement is considered in a multi scalar way from the individual footprint to the long distance path including the traces created in vegetation by animal and human movement It is argued that routes may be perpetuated over long timescales creating landscape structures which influence the activities of subsequent generations In other instances radical changes of axes of communication and landscape structures provide evidence of upheaval and social change

Palaeoenvironmental and ethnohistorical evidence from the American North West coast sets the scene with evidence for the effects of burning animal movement faeces deposition and transplantation which can create readable routes along which are favoured resources Evidence from European hunter gatherer sites hints at similar practices of niche construction on a range of spatial scales On a local scale footprints help to establish axes of movement the locations of lost settlements and activity areas Wood trackways likewise provide evidence of favoured patterns of movement and past settlement location Among early farming communities alignments of burial mounds enclosure entrances and other monuments indicate axes of communication From the middle Bronze Age in Europe there is more clearly defined evidence of trackways flanked by ditches and fields Landscape scale survey and excavation enables the dating of trackways using spatial relationships with dated features and many examples indicate long term continuity of routeways Where fields flank routeways a range of methods including scientific approaches provide dates Prehistorians have often assumed that Ridgeways provided the main axes of early movement but there is little evidence for their early origins and rather better evidence for early routes crossing topography and providing connections between different environmental zones The book concludes with a case study of the Weald of South East England which demonstrates that some axes of cross topographic movement used as droveways and generally considered as early medieval can be shown to be of prehistoric origin One reason that dryland routes have proved difficult to recognise is that insufficient attention has been paid to the parts played by riverine and maritime longer distance communication It is argued that understanding the origins of the paths we use today contributes to appreciation of the distinctive qualities of landscapes Appreciation will help to bring about effective strategies for conservation of mutual benefit to people and wildlife by maintaining and enhancing corridors of connectivity between different landscape zones including fragmented nature reserves and valued places In these ways an understanding of past routeways can contribute to sustainable landscapes communities and quality of life

Merkin and Flannery on the Arbitration Act 1996 Robert Merkin, Louis Flannery QC, 2019-11-21 This book is an essential resource for anybody involved in arbitration It is an updated section by section commentary on the Arbitration Act 1996 split into a separate set of notes for each section and subdivided into the relevant issues within that section It contains elements of international comparative law citing authorities from many other common law and civil law jurisdictions Beyond the development of law since the last edition this sixth edition contains new practical features to aid the reader Each section now has a new contents table with each separate topic set out clearly and in a logical order which acts as reminder for the reader Further each separate topic now has a specific individual

reference and the topics are grouped in a more systematic and logical way within each section to improve readability The book is primarily aimed at practitioners of arbitration both in the UK and abroad including solicitors barristers arbitrators and judges who are involved in the practice of arbitration whether domestic or international It is also aimed at UK and international students of international arbitration especially in relation to the sections with comparative legal analysis and comprehensive discussions on the interaction between the Arbitration Act 1996 and institutional arbitration rules Erratum The authors regret that the new version of the LCIA Rules will not now be published or be applicable until early 2020 due to unexpected circumstances It is understood that those Articles referred to in the text as the 2019 Rules will remain unchanged albeit that the Rules when in force should be and will be cited as the 2020 LCIA Rules The authors accept responsibility for and apologise for this error

Security Rights in Intellectual Property Eva-Maria Kieninger, 2020-06-11 This book discusses the main legal and economic challenges to the creation and enforcement of security rights in intellectual property and explores possible avenues of reform such as more specific rules for security in IP rights and better coordination between intellectual property law and secured transactions law In the context of business financing intellectual property rights are still only reluctantly used as collateral and on a small scale If they are used at all it is mostly done in the form of a floating charge or some other all asset security right The only sector in which security rights in intellectual property play a major role at least in some jurisdictions is the financing of movies On the other hand it is virtually undisputed that security rights in intellectual property could be economically valuable or even crucial for small and medium sized enterprises especially for start ups which are often very innovative and creative but have limited access to corporate financing and must rely on capital markets securitization capital market Therefore they need to secure bank loans yet lack their own traditional collateral such as land

Arbitration

Clauses in Maritime Contracts Eleni Magklasi, 2024-06-28 Arbitration clauses are sacrosanct in maritime contracts Standard forms of charterparties and bills of lading reflect a desire to trade over the trusted dispute resolution choice of

arbitration However when incorporating arbitration clauses disputes and interpretational complexities continue to arise evidencing that the law is not settled yet This book introduces a holistic evaluation of the commercial reasons and the legal principles that permeate the incorporation of arbitration clauses in modern maritime contracts contrasting arbitration with exclusive jurisdiction clauses where appropriate The book presents a modern specialised legal study of incorporation of arbitration clauses into maritime contracts considering recent developments and long established principles of incorporation Offering a thorough research into English European and Chinese law with the objective to assess how the incorporation of arbitration principles crystallises through the years the book will be of interest to researchers legal practitioners and commercial parties

PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
