MGA truly marked a revolution in MG sports car design with its appearance quite unlike any previous production car from
the celebrated British marque Entering production in the summer of 1955 it broke with the time honoured tradition of
narrow gutted flat sides upright styling with the distinctive large grille exposed headlamps separate wings and sharply cut off
tail that had serviced the majority of MG sports cars for well over thirty years Many die hard MG enthusiasts of the time were
understandably outraged but the decision to break with tradition proved to be a good one over 100 000 cars were produced
over the model s seven year lifetime This book from celebrated author David Knowles covers the circumstances that led to
the momentous decision to make such a fundamental design change the production publicity and evolution of each and every
MGA variant from launch in 1955 to the end of production in 1962 with specification tables for each model profiles of the
people who had crucial roles in the development of the MGA and finally the largely untold story of overseas assembly in
Australia Ireland Mexico and South Africa It offers comprehensive coverage of racing and rallying in Europe including the
MGA entries at Sebring Twelve Hour race and where many of the cars ended up and will be of great interest to all motoring
enthusiasts and those particularly interested in MG It is extensively illustrated with 200 colour and 300 black white
photographs much of it drawn from archives and family collections as well as photoshoots specially commissioned for this
