

M-6 M-8

Features

Benefits

Omnipolar™ design.	Creates the widest and deepest 360° soundstage of any speaker.
Powered/ Passive system.	The built in amplifiers relieve the burden of amp-draining low frequencies, allowing the speakers to be efficiently driven by most amplifiers.
Legendary PTH™ high resolution tweeters.	The PTH™ tweeter earned its fame with its crystal clear and amazing lifelike high frequency reproduction, with low distortion, high power handling, and wide dispersion.
Proprietary Injection Molded Drivers	The excellent waveform properties and inert baskets result in improved midrange and low frequency accuracy, and perfect consistency.
Dual Heavy Duty Subwoofers mounted in an Omnipolar™ Array.	Mounting the drivers in this configuration eliminates cabinet vibration and results in greater bass extension.
MOSFET amplification for the low frequency.	Powering the low frequencies puts less of a workload on the receiver or amplifier. Deep, clean bass response results from a small and elegant cabinet.
Isolated Power Supply.	Free from electrical interference, the result is pure sonic performance.
Subtractive Filter.	The reproduction of the mid to bass frequency range is free of the inherently disjointed sound common to separate subwoofers.
Automatic On/ Off Subwoofer Power.	Unnecessary to manually turn it on and off.
