Ethical Guidelines By Richard DeGeorge:

The Ethics of Business in a Global Economy P.M. Minus, 2013-03-14 Paul M Minus Overview The papers gathered in this volume were first presented for reflection and discussion at a landmark event in March 1992 The International Conference on the Ethics of Business in a Global Economy held in Columbus Ohio brought together over 300 participants from twenty two nations in six continents This was the most geographically diverse body of leaders ever assembled to consider issues of ethics in business Approximately two thirds of them were business executives the others came mainly from the fields of education and religion Knowing the context from which this book emerged will help readers understand its composition and content As can be quickly seen the fourteen authors who have contributed to it come from different areas of the world and from different fields of endeavor One finds first essays on the book's central theme by business leaders from four nations Next there are analyses of three key topics by scholars active in the fields of economics and ethics Then come statements by practitioners of four major world religions on the relevance of their respective traditions to the ethics of business Finally there are six brief case studies prepared by two business ethicists about specific ethical issues arising in international business The authors address different facets of one of the most dramatic new facts of our time the globalization of business With many corporations now operating around the world and others planning a significant expansion of markets this development is destined to accelerate in coming decades *Ethics in an Era of Globalization* M. S. Ronald Commers, 2016-12-05 This much needed volume represents all that is new in the field of global ethics It recognizes the emergence of the search to move beyond relativism and the study of ethical aspects of globalization acknowledging aspects of globalization that make ethical reasoning itself a challenging task As such the young field of global ethics is a search for new approaches and methodologies that go beyond existing ones and succeed in addressing these ethical issues of globalization This volume presents these new developments focusing specifically on how to reconceive ethics in order to come to grips with ethical and political life today It sets out an agenda for the field of global ethics addresses the critiques and illustrates the rapprochement of global ethics This is a valuable collection of essays that connect theoretical innovation with substantive issues in the public realm and hence is suitable for a wide audience across philosophy politics international relations and development studies
