Women's Under-Representation in the Engineering and Computing Professions: Fresh Perspectives on a Complex Problem Kathleen Buse, Catherine Hill, Romila Singh, 2018-06-21 Understanding the many complexities that define gender inequality has been described by researchers as a grand challenge. Novel insights, innovation, a broader community to conduct research and to ascertain effective interventions are essential in the challenge to create organizations that are gender equal. As such, this Research Topic in *Frontiers in Psychology* addresses the underrepresentation of women in engineering and computing as a complex but solvable problem. This Research Topic seeks to inform the global community about advances in understanding the underrepresentation of women in engineering and computing with a focus on what enables change. Further, this Topic will promote fresh perspectives, innovative methodologies, and mixed method approaches important to accelerating the pace of change.

The Routledge Handbook of Religion, Politics and Ideology Jeffrey Haynes, 2021-08-14 This comprehensive handbook examines relationships between religion, politics, and ideology with a focus on several world religions: Christianity, Islam, Buddhism, Hinduism, and Judaism in a variety of contexts, regions, and countries. Relationships between religion, politics, and ideology help mould people's attitudes about the way that political systems, both domestically and internationally, are organised and operate. While conceptually separate, religion, politics, and ideology often become intertwined, and as a result, their relationships evolve over time. This volume brings together a number of expert contributors who explore a wide range of topical and controversial issues, including gender, nationalism, communism, fascism, populism, and Islamism. Such topics inform the overall aim of the handbook to provide a comprehensive summary of the relationships between religion, politics, and ideology, including basic issues and new approaches. This handbook is a major research resource for students, researchers, and professionals from various disciplinary backgrounds, including religious studies, political science, international relations, and sociology.
