Agarwal,2012-05-22 The origin of world civilization can be traced to the Sindhu and Sarasvati river valleys located in present day Pakistan as early as 8 000 BC Here innovation and originality in every aspect of human endeavor from mathematics and science to art and sports flourished Yet the importance of this civilization known as the Vedic period has been deliberately downplayed Thoroughly researched and including an extensive bibliography From Bharata to India rectifies this mistake in the perspective of world history and seeks to offer a comprehensive reference source Author M K Agarwal shows how this early culture where ideation by enlightened philosopher Brahmin kings brought material and spiritual wealth that was to

remain unchallenged until the colonial era This Vedic Hindu Buddhist legacy subsequently influenced peoples and paradigms around the globe ushering in an era of peace and plenty thousands of years before the Europeans By using original sources in Sanskrit as well as regional literature Agarwal compares corresponding situations in other civilizations within the context of their own literary traditions and records to prove that Bharata forms the basis of world civilization This is in direct contrast to the Greek or Arab miracle hypothesis put forth by numerous scholars The first of two volumes in this series From Bharata to India offers a fascinating in depth glimpse into ancient India's contribution to the modern world [The Zone Engine](#) Allen Van Camp, The Zone Engine plunges readers into a world where reality bends timelines collide and the boundaries of human understanding are pushed to the brink A brilliant team unlocks the power of cold fusion combined with a powerful EM field only to spark a global power struggle between a shadowy government and a ruthless corporation Some technologies are too dangerous to be owned Just as one man prepares to prevent the Engine from falling into the wrong hands an interdimensional being intervenes alters the fate of them all Fifteen years later haunted by loss and armed with the upgraded Zone Engine he takes one shot to rewrite the past and save his family who still haunt his dreams Time doesn't wait But he learned to listen and carry the weight of every choice In the stillness between seconds redemption calls The future begins now The Zone Engine is a high stakes sci fi thriller filled with Deep diving U boat action Augmented aerial combat Quantum entanglements Time travel And a love strong enough to bend the laws of time Perfect for fans of The Expanse Interstellar and Dark Matter

God's Quantum Vortex Jim Walker,2015-09-24 The story evolves from the personal experiences

of the writer from his deep forty years research and discoveries of quantum cone vortex Once into awareness he reveals the techniques of connecting and triggering the act of God events He formulates the mysteries of self fate programming He explains how the government religion finance and science are interconnected for the first time in history His research deep dives into the Bible yoga meditation wave particle quantum physics and into occult the metaphysics He is not just theorizing about life events he is proactively changing the events in biblical proportions He becomes the miracle creator by thought and by action the trigger man who can only relate to the higher dimensions and to cosmic intelligence The formulas he writes may seem similar to previous theoretical physicists but they are his own concept given the examples of his work and e mail prior to the God s Particle Boson announcement by Peter Higgs on July 4 2012 The quantum cone vortex diagram and its connection to yin and yang with annihilation and creation related to cosmic spiral sequence of four sixes may seem absurd to earths fourth dimensional thinkers but it is backed by facts by the author His prediction of the next flood is backed by errors in time measured by Mayans and Nostradamus Once a person is elevated to the vortex in quantum cone with zero weight gravity and when time stops in quantum reality then he she will be able to be awarded with all possibilities to create or destroy The writer imitates the out of the box thinking of God but he is not comparing himself to cosmic intelligence He just uses the quantum energy in form of dark and light energy he calls them Satan and God respectively for convenience The examples are powerful and convincing The reader should not just observe the authors human encounters to get to quick conclusions It is a manual of how to think without fear Once the fear is eliminated the mind is open to deep into subconsciousness and to build the awareness where all possibilities are unrestricted and to rise to the sixth cosmic dimension God **The Tesla Papers**
