

June, 2022 MMPC-001: MANAGEMENT FUNCTIONS AND ORGANISATIONAL PROCESSES

Note: (i) There are two sections, A and B. (ii) Attempt any three questions from Section A. All questions carry 20 marks each. (iii) Section B is compulsory and carries 40 marks.

**Q1. Describe and discuss different processes of recruitment and their methods. Briefly explain the importance of Training and Development in organizations. 20**

**Ans:** Recruitment is defined as prompting maximum number of candidates to apply in the organization for vacant position of job. The function of recruitment is very essential because the conclusion of recruitment function is accepting huge number of applications in order to make selection from them. The two types of recruitment process are:

**A. Internal Recruitment Process-** in internal recruitment process unoccupied job Positions are filled up by the already existing workers of the company. No applicants from outside is allowed in the internal source.

**Advantages** of internal recruitment process are

1. It is efficient and economical
2. It stimulates the already existing employees
3. Time required for training is less
4. Chances of turnovers are also less because employees are familiar with the organization's rules and regulations
5. It also helps in improving employee's performance as in order to get promotion better performance is shown by employees.
6. Employees are trained through transfer also as in the manifestation of job rotation.
7. Remaining workers can be moved to other department through transfer.

**Disadvantages**

1. No novel ideas will approach in the organization.
2. Limited choices will be there
3. Not satisfactory for new organization
4. Due to frequent transfer productivity of employees may get reduced.

**Methods of Internal Recruitment**

1. **Transfer-** transferring means carrying clients from one job position to another at the identical authority. The compensation level along with the authority level remain unchanged with the transfer. Prestige, rank and responsibilities also remained unchanged. The only thing which changes is the working place. E.g.: when a clerk is transferred from accounts to purchase department.
2. **Promotion-** promotion means transfer of employees from the current job position to higher authority level. With the promotion aspects like prestige, rank, employee's responsibility along with the authority level enhances.

**B. External Recruitment Process-** external recruitment is defined as a process in which Applications for filling the vacant job position are invited from outside the organization. It is preferred when a huge number of job positions are unoccupied.

**Advantages**

1. Fresh and novel talent contributes in the organization.
2. Wide array of options are available
3. Management comes across trained and qualified personnel.

# Ignou Solved Question Papers

**Manish Soni**

## **Ignou Solved Question Papers:**

IGNOU MCS 231 Mobile Computing Previous Year Solved Papers Manish Soni, 2024-11-13 The study of algorithms is fundamental to the field of computer science and engineering and it forms the backbone of software development data processing and problem solving The course MCS 231 Mobile Computing offered by the Indira Gandhi National Open University IGNOU is pivotal for students pursuing a degree in computer science The rigorous curriculum of this course requires students to not only understand the theoretical aspects of algorithms but also to apply this knowledge in solving complex computational problems To assist students in their journey of mastering this subject this book presents a comprehensive collection of previous years unsolved papers of the MCS 231 course The rationale behind compiling these unsolved papers is to provide students with a valuable resource that will enhance their understanding of the subject and prepare them effectively for examinations These papers serve as an essential tool for self assessment allowing students to gauge their knowledge identify areas that require further study and practice solving problems within the time constraints typically imposed by examinations Moreover working through these papers helps students develop the analytical thinking and problem solving skills necessary to excel in the field of Mobile Computing This book is meticulously organized to cater to the needs of students at various levels of understanding Each paper included in this compilation is carefully selected from different years to represent a broad spectrum of topics covered in the MCS 231 syllabus The problems range from basic algorithmic challenges to more complex scenarios that test a student's ability to design efficient and effective algorithms By attempting these unsolved papers students will not only reinforce their theoretical knowledge but also gain hands on experience in tackling real world algorithmic problems In addition to serving as an academic resource this book is also intended to instil confidence in students as they prepare for their examinations The exposure to a variety of problems will familiarize students with the types of questions that are likely to appear in exams enabling them to approach their studies with a strategic mindset This book encourages a deeper exploration of the subject prompting students to engage with the material beyond the standard textbook content and to think critically about the design and analysis of algorithms We would like to express our gratitude to the students and educators who have contributed to the development of this book Their insights and feedback have been invaluable in ensuring that this compilation meets the highest standards of academic excellence As you embark on your journey through the world of algorithms we hope that this book will be a reliable companion in your studies helping you to unlock the full potential of your capabilities in the field of computer science

**IGNOU Artificial Intelligence Previous 10 Years Solved Papers** Manish Soni, 2024-11-13 Welcome to the world of comprehensive learning and academic excellence with 10 Years Solved IGNOU Papers Artificial Intelligence As we stand at the forefront of a technological revolution the field of Artificial Intelligence AI has emerged as a driving force transforming the way we live work and perceive the world around us The Indira Gandhi National Open University IGNOU has been at the

forefront of providing quality education and this compilation of solved papers aims to facilitate your journey through the AI program. Over the past decade, AI has witnessed unprecedented growth, becoming an integral part of various industries from healthcare to finance and from education to entertainment. Keeping pace with this dynamic field requires a strong foundation, and IGNOU's AI program is designed to provide just that. This book, featuring solved papers from the last 10 years, serves as an invaluable resource for students, offering a comprehensive overview of the examination patterns, question types, and the depth of knowledge required to excel in AI studies. The selection of solved papers in this book is meticulous, covering a wide range of topics such as machine learning, natural language processing, robotics, and neural networks. Each solution is presented in a clear and concise manner, offering not only the correct answers but also detailed explanations to enhance your understanding of the underlying concepts. We believe that learning from past examinations is a powerful tool for success, and this book is crafted with the intention of providing you with the necessary insights to tackle future challenges in the AI domain. As you embark on this academic journey, it is essential to acknowledge the dedication and hard work put in by the faculty, authors, and experts in compiling this collection. Their commitment to academic excellence is reflected in the quality of solutions provided, ensuring that you receive the best possible guidance for your AI studies.

Approach each solved paper with curiosity and diligence, treating it not only as a test of your current understanding but also as an opportunity for growth and improvement. In conclusion, *10 Years Solved IGNOU Papers* includes:

- Extensive Analysis of Solved Papers:** Each chapter focuses on a specific year's exam, providing detailed solutions and explanations that clarify the rationale behind each answer, helping you understand the intricacies of question framing and answer selection.
- Theoretical Insights and Practical Examples:** To supplement the solved papers, we provide theoretical insights and practical examples that explain complex AI concepts, ensuring a well-rounded understanding.
- Mock Tests and Self Assessment:** To mimic examination conditions and test your readiness, we include mock tests crafted from unsolved questions and typical exam questions, accompanied by self-assessment tools that help you track your progress and identify areas needing improvement.
- Expert Tips and Examination Strategies:** Gain from insights provided by experts who have a profound understanding of the IGNOU exams. These tips are designed to enhance your examination tactics and time management skills.

Artificial Intelligence is more than just a compilation of solved papers; it is a companion on your academic journey, providing guidance, insights, and a roadmap to success. Embrace the challenges, enjoy the process of learning, and let this book be your trusted ally in mastering the exciting and evolving field of Artificial Intelligence.

*IGNOU BCA System Analysis and Design Previous Year Solved Papers MCS 014*

Manish Soni, 2024-11-13

System Analysis and Design is a cornerstone in the field of information systems, serving as the blueprint for building reliable, efficient, and scalable software solutions. As organizations increasingly adopt complex systems to streamline their operations, the need for professionals proficient in analyzing requirements and designing structured solutions has become more crucial than ever. The Indira Gandhi National Open University (IGNOU) has recognized the
