Law and Ethics for Paramedics Georgette Eaton, 2022-04-01 Law and Ethics for Paramedics is the first book which really grapples with the application of law and ethics in the unique situations that paramedics and other prehospital professionals find themselves The book is clear concise and eminently readable but most of all useful to operational ambulance clinicians and their managers Tim Kilner Senior Lecturer in Paramedic Science University of Worcester UK Written by paramedics for paramedics this resource provides you with all the key information you will need to know as you navigate your way through the often tricky and complicated area of law and ethics in paramedic practice Eleven contributing authors each with their own perspectives and clinical backgrounds explain the essential principles and apply these across the whole of the UK Chapters cover a range of topics including Information governance Mental capacity Clinical negligence Paramedic use of social media Assessment and treatment of children Medicines management Each topic is broken down into practical chunks with many chapters supported by case studies to help relate the content to paramedic practice Sixteen case studies on topics from resuscitation to consent and useful top tips will help you develop reflect on and consider your own ethical practice The law and how it relates to your practice can be complex but with the help of this handy guide you will quickly gain confidence and insight into the legislation surrounding this vital aspect of paramedic practice

Pre-hospital Obstetric Emergency Training Advanced Life Support Group (ALSG), 2009-10-30 The Pre hospital Obstetric Emergency Training POET programme provides an introduction to the obstetric patient and the anatomical and physiological changes that occur during pregnancy including interpretation of

patient held records and rapid assessment of the obstetric patient. It includes clear definitions and describes risk factors, diagnosis and pre-hospital management of significant problems that occur in both early and late pregnancy and the immediate postnatal period. These are all situations that the pre-hospital practitioner may attend. This text and the accompanying integrated on-line and hands-on course will help practitioners identify and manage a range of time-critical obstetric emergencies specifically in the pre-hospital setting and provides a structured examination and assessment technique as an aid to determining what treatment should be provided before transport as well as when and how urgently transport should be initiated. POET is of relevance to paramedics, ambulance staff, doctors and nurses working in the emergency pre-hospital setting and to midwives facilitating home births. It will also be of considerable value to medical and nursing practitioners working in Emergency Departments and unscheduled care settings where immediate access to skilled obstetric assistance is not available.

The Parliamentary Monitor, 2002

The Paramedic at Work Leo McCann, 2022. Ambulance services and paramedics perform critical roles in contemporary healthcare economies yet this occupation is widely misunderstood. Through in-depth interviews and ethnographic observation, Leo McCann offers the first detailed study of the nature, development, culture and future of the paramedic profession in England.

Foundations for Paramedic Practice Amanda Blaber, 2012-04-01. This book addresses the theoretical elements of paramedic courses including psychology and sociology and provides clear links to practice.

Trauma Care Pre-Hospital Manual Ian Greaves, Keith Porter, 2018-12-07. This new book provides evidence-based guidelines for the immediate clinical management of major trauma. It has been written by clinicians with many years of trauma experience and endorsed as authoritative by Trauma Care UK. The UK now has highly effective trauma systems. Clinical developments include the introduction of damage control resuscitation, tranexamic acid, blood product resuscitation, novel hybrid resuscitation and an emphasis on the control of major external haemorrhage as part of a new ABCDE approach. Consequently, more individuals with major trauma are surviving than ever before. Optimal pre-hospital care is essential for improved survival rates and reduced morbidity.

Your Professional Qualification, 2002. What is the difference between an academic and professional qualification? Who should get a professional qualification? Did you know that some professions can not be legally practised with a degree alone? Why get a UK qualification? Is it expensive to gain a British qualification? What is a chartered institute or society and is it better than a non-chartered body? What is the difference between a professional body and a trade union? These are all questions answered in this book which is designed to help individuals choose a career path and the right professional organisation. In today's world it isn't enough to have a qualification; you need to be able to meet with peers and use the valuable networks that are already in place to foster your profession. *Your Professional Qualification* provides a comprehensive survey of the qualifications available in the UK along with guidance on where they lead, entry requirements, where to apply and where to study. Derived from the vast and authoritative British Qualifications database, this important publication provides the first easily accessible guide to
