(Received xx; revised xx; accepted xx)

This file contains instructions for authors planning to submit a paper to the *Journal of Plasma Physics*. These instructions were generated in L^AT_EX using the JPP style, so the L^AT_EX source file can be used as a template for submissions. The present paragraph appears in the abstract environment. All papers should feature a single-paragraph abstract of no more than 250 words, which provides a summary of the main aims and results.

1. How to submit to the *Journal of Plasma Physics*

Authors must submit using the online submission and peer review system, ScholarOne Manuscripts (formerly Manuscript Central) at <http://mc.manuscriptcentral.com/pla>. If visiting the site for the first time, users must create a new account by clicking on register here. Once logged in, authors should click on the Corresponding Author Centre, from which point a new manuscript can be submitted, with step-by-step instructions provided. Authors must at this stage specify the type of paper submitted: original article or review (see §5 for more details). Once your submission is completed you will receive an email confirmation.

Alternatively, authors can use the JPP template in the online collaborative authoring tool, Overleaf (<https://www.overleaf.com/latex/templates/latex-template-for-journal-of-plasma-physics-jpp/mstpytyllvy>). Overleaf has an intuitive interface that helps authors to format the article in the JPP style. It also has features that enable collaboration with co-authors (the ability to share, highlight and comment), sophisticated version control and clean PDF version conversion. The Submit button in Overleaf takes authors smoothly through to the ScholarOne Manuscripts system.

2. ORCID

JPP strongly encourages all corresponding authors to identify themselves using ORCID when submitting a manuscript to the journal. ORCID provides a unique identifier for researchers and, through integration in key research workflows such as publication and grant applications, provides the following benefits:

(i) Discoverability: ORCID increases the discoverability of your publications, by enabling smarter publisher systems and by helping readers to reliably find work that you've authored.

(ii) Convenience: As more organisations use ORCID, providing your ID or using it to register for services will automatically link activities to your ORCID profile, and will save you re-keying information multiple times.
