Mercury Rising: John Glenn, John Kennedy, and the New Battleground of the Cold War Jeff Shesol, 2021-06-01 A riveting history of the epic orbital flight that put America back into the space race If the United States couldn't catch up to the Soviets in space how could it compete with them on Earth That was the question facing John F Kennedy at the height of the Cold War a perilous time when the Soviet Union built the wall in Berlin tested nuclear bombs more destructive than any in history and beat the United States to every major milestone in space The race to the heavens seemed a race for survival and America was losing On February 20 1962 when John Glenn blasted into orbit aboard Friendship 7 his mission was not only to circle the planet it was to calm the fears of the free world and renew America's sense of self belief *Mercury Rising* re creates the tension and excitement of a flight that shifted the momentum of the space race and put the United States on the path to the moon Drawing on new archival sources personal interviews and previously unpublished notes by Glenn himself *Mercury Rising* reveals how the astronaut's heroics lifted the nation's hopes in what Kennedy called the hour of maximum danger

China's Peasant Agriculture and Rural Society Jan Douwe van der Ploeg, Jingzhong Ye, 2016-05-20 China's agriculture and rural society has undergone rapid changes in recent years Many poorer farmers and younger people have moved to cities and yet China has an immense challenge to feed a growing and more affluent population This book provides a bottom up view of China's agriculture showing how the many millions of Chinese peasants make a living It presents a vivid description of the mechanisms used by rural households to defend and sustain their livelihoods increase their agricultural production and improve the quality of their lives The authors examine the newly emerging trajectories of entrepreneurial and capitalist farming and assess whether such alternatives will be able to meet the enormous social economic and environmental challenges that China faces The book also explores the paradigm that has underpinned the organisation and development of China's agriculture from ancient times to the present day This shows the importance of balancing in the Chinese model as compared to the one sided imposition of continual modernization in the western model It is argued that such balancing is at the core of the current Sannong policy referring to the three ruralities of food sovereignty wellbeing for peasant households and an attractive countryside

Functional Future for Bibliographic Control

Shawne D. Miksa, 2017-07-05 The quest to evolve bibliographic control to an equal or greater standing within the current information environment is on going As information organizers we are working in a time where information and communication technology ICT has pushed our status quo to its limits and where innovation often needs the pressure of do or die in order to get started The year 2010 was designated as the Year of Cataloging Research and we made progress on studying the challenges facing metadata and information organization practices However one year of research is merely a drop in the bucket especially given the results of the Resource and Description and Access RDA National Test and the Library of Congress decision to investigate the possibility of transitioning the MARC21 format This book addresses how information professionals can create a functional environment in which we move beyond just representing information resources and into an environment that both represents and connects at a deeper level Most importantly it offers insight on transitioning into new communities of practice and awareness by reassessing our purpose re charting our efforts reasserting our expertise in the areas that information organizer have traditionally claimed but are losing due to stagnation and lack of vision This book was published as a double special issue of the Journal of Library Metadata
