Mathematics N5 Memo:

Mathematics for Business, Science, and Technology Steven T. Karris, 2007 This text is written for high school graduates preparing to take business or science courses at community colleges or universities working professionals who feel they need a math review from the basics and young students and working professionals Modern Geometry Vicente Muñoz, Ivan Smith, Richard P. Thomas, 2018-09-05 This book contains a collection of survey articles of exciting new developments in geometry written in tribute to Simon Donaldson to celebrate his 60th birthday Reflecting the wide range of Donaldson's interests and influence the papers range from algebraic geometry and topology through symplectic geometry and geometric analysis to mathematical physics Their expository nature means the book acts as an invitation to the various topics described while also giving a sense of the links between these different areas and the unity of modern geometry
