attempted to address the concerns of young Black men struggling to find direction. It is this group that author Supreme Understanding names as one of the most troubled demographics in American society today. On the book's website, the author comments, "Unfortunately, few authors actively target this audience, and those who do are either not speaking their language or not interested in pushing for change. This is why *How to Hustle and Win* was written. This book will change the minds of millions of young men of color, and by doing this, it will ultimately change the world. Revolutionary aspirations aside, *How to Hustle and Win*'s groundbreaking concept results in a truly appealing work. Its essays are delivered in short bursts, none of them over four pages long, making it ideal for struggling readers and those with shorter attention spans. At the same time, the book is filled with a wealth of information that would enlighten educated readers equally. In fact, the author juxtaposes his own personal tales of early delinquency and misdirection with his later years of professional success, including obtaining a doctorate in education at the age of 26."
