Samuelson, Stephen G. Marks, Jay L. Zagorsky, 2024-11-26 The new edition of the best selling managerial economics textbook extensively updated to reflect current examples data and research Now in its tenth edition Managerial Economics introduces

the complex decision problems facing today's managers equipping undergraduates MBAs and executives with the economic knowledge and analytical skills required to solve these problems. Going beyond the traditional academic approach to teaching economic analysis, this comprehensive textbook favors practical examples and skills rather than theoretical treatments, illustrating how managers use various economic methods in the modern business environment.
