sentence Bold dialog form elements Many times an item on the form is named as a fragment so it makes reading the sentence that refers to it difficult As an example one option on the Options dialog box states Send immediately when connected Therefore for the reader to more easily discern the name of the option from our descriptive text the option text always appears in bold for example Turn on the option labeled Send immediately when connected Keyboard combination When the reader needs to press multiple keys to carry out a function the specific text typically shown on the keys is shown in bold Therefore if you need to hold the Ctrl button while pressing the letter n the text would read Press the Ctrl N combination
