Mid-term evaluation of the project “The coastal fisheries initiative global partnership” Food and Agriculture Organization of the United Nations, 2021-10-01 Many coastal fisheries are poorly managed and overexploited resulting in suboptimal yields and lost revenue and damage to other species and habitats The Coastal Fisheries Initiative CFI is a global effort between FAO and other development partners to address these issues in a holistic and integrated way It aims to work at a practical level with selected fisheries and to facilitate a global exchange of experience and learning The CFI comprises subsidiary regional projects in Indonesia Latin America and West Africa a sustainable investment support project and a global partnership and coordination project The mid term evaluation of the global coordination project found that while the initiative is extremely relevant it has so far had limited impact of a strengthened global partnership The evaluation recommended greater coordination between the subsidiary projects a strengthened reporting structure and a project extension of up to two years

**Mid-term evaluation of the project “Disposal of persistent organic pollutants and obsolete pesticides and strengthening sound pesticide management in Cameroon”** Food and Agriculture Organization of the United Nations, 2020-02-07 Every year large quantities of pesticides are used in Cameroon for agricultural production However without proper management of pesticides and associated waste accumulation of stocks of obsolete pesticides has led to contamination of sites In this context the project Disposal of POPs and Obsolete Pesticides and Strengthening Sound Pesticide Management in Cameroon was launched to address the problems of stocking and to develop alternatives to the use of chemical pesticides Project activities were found to be well defined and appropriate aligning with

the country's priorities and needs. The evaluation however also notes that there are substantial delays in the implementation of activities due to slow decision making and lack of regular monitoring. Therefore it recommends the urgent need for developing an implementation strategy for the remaining activities. In addition meetings should be held in a more timely manner to enable members to monitor and accelerate the implementation of activities.

### **Public Investment**

**Management Reference Guide** Jay-Hyung Kim,Jonas Arp Fallov,Simon Groom,2020-03-03 The Public Investment Management PIM Reference Guide aims to convey country experiences and good international practices as a basis for decisions on how to address a country specific PIM reform agenda The country references are drawn largely from previous diagnostics and technical assistance reports of the World Bank The application of country diagnostics and assessments has revealed a need to address the following issues when undertaking a country reform in PIM Clarification of the definition and scope of public investment and public investment management Establishment of a sound legal regulatory and institutional

setting for PIM making sure it is linked to the budget process Allocation of roles and responsibilities for key players in PIM across government Strengthening of guidance on project preappraisal appraisal and selection prioritization procedures and deepening of project appraisal methodologies Integration of strategic planning project appraisal selection and capital budgeting Management of multiyear capital budget allocations and commitments Efforts to address effective implementation procurement and monitoring of projects Strengthening of asset management and ex post evaluation Integration of PIM and public private partnership PPP in a unified framework Rationalization and prioritization of the existing PIM project portfolio Development of a PIM database and information technology in the form of a PIM information system The PIM Reference Guide does not seek to provide definitive answers or standard guidance for the common PIM issues facing countries Nor does it seek to provide a detailed template for replication across countries this would be impossible given the diversity of country situations Instead each chapter begins with an overview of the specific reform issue lists approaches and experiences from different countries and summarizes the references and good practices to be considered in designing country specific reform actions

Manual of Simulation in Healthcare Richard H. Riley, 2008 Medical simulation is a relatively new science that is achieving respectability among healthcare educators worldwide Simulation and skills centres have become established to integrate simulation into mainstream education in all medical nursing and paramedical fields Borrowing from the experience and methodologies of industries that are using simulation medical educators are grappling with the problem of rapidly acquiring the skills and techniques required to implement simulation programmes into established curricula This book assists both novice and experienced workers in the field to learn from established practitioners in medical simulation Simulation has been used to enhance the educational experience in a diverse range of fields therefore a wide variety of disciplines are represented The book begins with a section on the logistics of establishing a simulation and skills centre and the inherent problems with funding equipment staffing and course development and promotion Section two deals with simulators and related training devices that are required to equip a stand alone or institution based centre The features strengths and weaknesses of training devices are presented to help the reader find the appropriate simulator to fulfil their training requirements There is a guide to producing scenarios and medical props that can enhance the training experience The third section covers adult education and it reviews the steps required to develop courses that comply with best practice in medical education Teaching skills facilitating problem based learning groups and debriefing techniques are especially important to multidisciplinary skills centres that find themselves becoming a centre for medical education The manual concludes with guides for the major specialties that use simulation including military paediatrics CPR and medical response teams obstetrics and anaesthesia
