Perspectives on Transitions in Schooling and Instructional Practice Susan E. Elliott-Johns, Daniel H.

Jarvis, 2013-12-06 Perspectives on Transitions in Schooling and Instructional Practice examines student transitions between major levels of schooling teacher transitions in instructional practice and the intersection of these two significant themes in education research Twenty six leading international experts offer meaningful insights on current pedagogical practices obstacles to effective transitions and proven strategies for stakeholders involved in supporting students in transition The book is divided into four sections representing the four main transitions in formal schooling Early Years Home Pre school and Kindergarten to Early Elementary Grades 1 3 Early Elementary to Late Elementary Grades 4 8 Late Elementary to Secondary Grades 9 12 and Secondary to Post Secondary College and University A coda draws together over arching themes from throughout the text to provide recommendations and a visual model that captures their interactions Combining theoretical approaches with practical examples of school based initiatives this book will appeal to those involved in supporting either the student experience both academically and emotionally or teacher professional learning and growth *Thinking About Schools* Aimee Howley, Craig Howley, 2012-11-12 As its title implies this book has a deceptively simple mission to prepare would be school leaders to draw upon a variety of theoretical perspectives when thinking about schools and schooling It shows how theories can function as cognitive tools to be mastered carefully stored in one s intellectual toolbox and used to interpret and resolve real world problems Beneath this goal lies the belief that the most effective leaders are those who are able to construct their own well grounded interpretations of events and their own responses to those events Key features of this exciting new text include the following Focus on Alternative Theories The functionalist theoretical views that have dominated administrator preparation programs for the last half century are reviewed early in the book and are shown to be inadequate to the task of understanding and coping with the complex realities of modern day schooling The remainder of the book presents alternative views of schooling that taken together can be thought of as a theoretical repertoire from which to construct interpretations and solutions to everyday real world problems Focus on Diversity Diversity is examined from a variety of viewpoints Chapter 6 looks at the cultural bases of leadership Chapter 7 at comparative and international contexts and Chapter 8 at gender and sexual orientation Illustrative Cases Each chapter contains a case with an embedded dilemma similar to those that real world administrators confront While illustrating the particular theoretical view presented in the chapter these cases are sufficiently complex that they lend themselves to interpretation by any of the other theories considered in the book This book is appropriate for graduate level courses with titles such as Organizational Theory Theory of School Leadership or Introduction to Educational Administration It might also be used as one of several texts in advanced courses on leadership theory Learning and Understanding National Research Council, Division of Behavioral and Social Sciences and Education, Center for Education, Committee on Programs for Advanced Study of Mathematics and Science in

American High Schools,2002-09-06 This book takes a fresh look at programs for advanced studies for high school students in the United States with a particular focus on the Advanced Placement and the International Baccalaureate programs and asks how advanced studies can be significantly improved in general It also examines two of the core issues surrounding these programs they can have a profound impact on other components of the education system and participation in the programs has become key to admission at selective institutions of higher education By looking at what could enhance the quality of high school advanced study programs as well as what precedes and comes after these programs this report provides teachers parents curriculum developers administrators college science and mathematics faculty and the educational research community with a detailed assessment that can be used to guide change within advanced study programs Critical Practice in P-12 Education: Transformative Teaching and Learning Lawrence, Salika A.,2014-01-31 This book presents a framework for teaching that empowers students fosters literacy development and explains the underlying factors that influence pedagogy highlighting practices from around the globe The Algebra Miracle: The True Story of a High-Poverty School's Triumph in the Age of Accountability Stuart Alan Singer,2012-02-21 A miracle is defined as a highly improbable or extraordinary accomplishment The story of the Algebra program at JEB Stuart High School in Fairfax Virginia qualifies for such a designation Over a period of fifteen years a series of ambitious no cost innovations which challenged the prevailing status quo in math education led to a set of academic accomplishments that were indeed improbable and extraordinary This miracle was achieved by a high poverty ethnically diverse student body that was unique at the time but is now representative of schools found throughout the U S For everyone touched by education from parents and students to teachers and administrators The Algebra Miracle will provide insights into the complexity of finding a low cost formula for academic success in the tight budgetary times of the 21st century This story serves as a model of what can be accomplished when a dedicated school staff commits its time energy and creativity to the needs of their students **The American Mathematical Monthly** ,1910 Includes section Recent publications *A Course of Study for the Preparation of Rural School Teachers, Nature Study, Elementary Agriculture, Sanitary Science, and Applied Chemistry* David Eugene Smith,Edward Douglas Greenman,Fred Mutchler,Henry Stoddard Curtis,International Commission on the Teaching of Mathematics,Mary Adelaide Nutting,Mrs. Fannie Fern (Phillips) Andrews,William Heard Kilpatrick,William Starr Myers,William James Craig,1912 **New Developments in Pathways Towards Diversity and Inclusion in STEM: A United States Perspective** Alexander Gates,Juan Gilbert,Chris Botanga,Kim Nguyen,Bonita London,2022-10-17 The Louis Stokes Alliances for Minority Participation LSAMP program of the US National Science Foundation has been a primary force for raising the success and graduation of minority students in STEM for 30 years Increasing the number of underrepresented students earning baccalaureate degrees and entering graduate school in STEM is the goal of LSAMP This goal has been nearly achieved through the formation of alliances of degree granting institutions of higher learning varying from community

colleges to major research institutions Currently there are 59 alliances including more than 400 institutions LSAMP is responsible for more than 650 000 bachelor s degrees earned by minority students in STEM The papers for this Research Topic should focus on the use of LSAMP activities programs and collaborations to develop pathways to success and graduation of STEM majors from minority groups that underrepresented in STEM These pathways can include any segment from pre college through graduate school Areas of special interest include mentoring research experiences transitions between levels and novel approaches for retention The studies should be research based and rigorous They can be pure research studies curriculum and design or literature reviews but they must be at a cutting edge level and be subject to detailed review and assessment

Implementing School-based Management Harry P. Hatry,1993 This report presents the findings and recommendations of an examination of the implementation of a major form of school based management SBM It is based on case studies of the science and mathematics departments of 10 high schools and 9 middle or junior high schools in 12 school systems almost all of which are urban school districts The study found that implementation often falls short of the ideal It did not find dramatic changes resulting from SBM However those schools and faculty members that took advantage of their added flexibility under SBM were able to achieve numerous small scale improvements The report provides a series of recommendations for school districts and individual schools to increase the likelihood of successful implementation of decentralization efforts such as SBM The findings and recommendations cover such issues as 1 the extent of decentralization of budgeting expenditure and personnel decisions 2 the role of site councils and department heads and 3 communication and training needs Appendixes list participating schools and districts and contain a literature review Contains 117 references Author SLD

Horowitz, California Academic Partnership Program, 2005 What happens when some of the lowest performing high schools in the state of California make a commitment to reform themselves This book goes inside the reform efforts of 28 high schools where educators collaborated to fundamentally change expectations for students in effect to prepare all students for postsecondary education By challenging the status quo teachers and administrators set out to strengthen their delivery of services so that all students especially those traditionally denied access to college would leave their care with more options for college and for life Reported here are the conclusions from formal evaluations over the past ten years of high school reform shepherded by the California Academic Partnership Program CAPP CAPP schools are each funded for three to five years with grants of about 100 000 a year to make fundamental changes for their students As these schools discovered not all changes are equally valuable but some are simply essential In the words of the educators themselves and through the perspectives of CAPP advisors who monitored the programs Inside High School Reform lays out some of the apparently universal lessons of making the reform changes that matter **Catalogue** University of Wisconsin, 1927 Some nos include
