Flickers English Edition:

Flicker Jeffrey M. Zacks, 2015 How is it that a patch of flickering light on a wall can produce experiences that engage our imaginations and can feel totally real From the vertigo of a skydive to the emotional charge of an unexpected victory or defeat movies give us some of our most vivid experiences and most lasting memories They reshape our emotions and worldviews but why In *Flicker* Jeff Zacks delves into the history of cinema and the latest research to explain what happens between your ears when you sit down in the theatre and the lights go out Some of the questions *Flicker* answers Why do we flinch when Rocky takes a punch in Sylvester Stallone's movies duck when the jet careens towards the tower in *Airplane* and tap our toes to the dance numbers in *Chicago* or *Moulin Rouge* Why do so many of us cry at the movies What's the difference between remembering what happened in a movie and what happened in real life and can we always tell the difference To answer these questions and more *Flicker* gives us an engaging fast paced look at what happens in your head when you watch a movie

Flicker Theodore Roszak, 2005-04-01 From the golden age of art movies and underground cinema to X rated porn splatter films and midnight movies this breathtaking thriller is a tour de force of cinematic fact and fantasy full of metaphysical mysteries that will haunt the dreams of every moviegoer Jonathan Gates could not have anticipated that his student studies would lead him to uncover the secret history of the movies a tale of intrigue deception and death that stretches back to the 14th century But he succumbs to what will be a lifelong obsession with the mysterious Max Castle a nearly forgotten genius of the silent screen who later became the greatest director of horror films only to vanish in the 1940s at the height of his talent Now 20 years later as Jonathan seeks the truth behind Castle's disappearance the innocent entertainments of his youth the sexy sirens the screwball comedies the high romance take on a sinister appearance His tortured quest takes him from Hollywood's Poverty Row into the shadowy lore of ancient religious heresies He encounters a cast of exotic characters including Orson Welles and John Huston who teach him that there's more to film than meets the eye and journeys through the dark side of nostalgia where the Three Stooges and Shirley Temple join company with an alien god whose purposes are anything but entertainment

Flickering Flames Joy Dasgupta, 2025-01-26 Thirty years down the line a chance meeting of old flames in a railway coach rekindles the unfettered attraction Nevan Sinha a decent boy in his youth from a lower middle class background was besotted by a bubbly girl Nisha Sharma an affluent progeny Their endearing bond is woven into a fascinating story of ingenuous exuberance and conspicuous affinity Laced with basic human emotions their saga satiates the heart with a kaleidoscope of experiences Their unexpected encounter on rolling stock brings an intriguing trail of fate that had drifted them apart Nevan's poignant attachment unravels with a startling disclosure about Nisha which leaves him dumbfounded Freshly moistened with flickering possibilities from the heady encounter he could hardly gather himself before destiny interfered again with another blow of reality In a deft display of sprightly camaraderie the author Joy Dasgupta picks up two pious souls who transcend the boundaries of friendship and plunges into the mystic world of romance

with untamed senses for togetherness With gripping warmth and unceasing emotion the author's nuanced attempt to mirror the touch of destiny in their disjointed lives leaves the reader with immersive anticipation Flickering Light Christoph Ribbat, 2013-07-15 Without neon Las Vegas might still be a sleepy desert town in Nevada and Times Square merely another busy intersection in New York City Transformed by the installation of these brightly colored signs these destinations are now world famous representing the vibrant heart of popular culture But for some neon lighting represents the worst of commercialism Energized by the conflicting love and hatred people have for neon *Flickering Light* explores its technological and intellectual history from the discovery of the noble gas in late nineteenth century London to its fading popularity today Christoph Ribbat follows writers artists and musicians from cultural critic Theodor Adorno British rock band the Verve and artist Tracey Emin to Vladimir Nabokov Langston Hughes and American country singers through the neon cities in Europe America and Asia demonstrating how they turned these blinking lights and letters into metaphors of the modern era He examines how gifted craftsmen carefully sculpted neon advertisements introducing elegance to modern metropolises during neon's heyday between the wars followed by its subsequent popularity in Las Vegas during the 1950s and 60s Ribbat ends with a melancholy discussion of neon's decline describing how these glowing signs and installations came to be seen as dated and characteristic of run down neighborhoods From elaborate neon lighting displays to neglected diner signs with unlit letters *Flickering Light* tells the engrossing story of how a glowing tube of gas took over the world and faded almost as quickly as it arrived *Critical Flicker Fusion* William Fried, 2018-03-26 The premise of this book is that films like other works of the imagination may be elucidated by applying methods derived from psychoanalysis and that doing so will result in a deeper and richer appreciation of the film's meaning The book explores a number of feature films that lend themselves particularly well to this process Both in his introduction and throughout the text the author comments on the method and discusses continuities similarities and differences among the films The book is structured according to the central themes of the films including time and death love and lust secrets and human identity Some of the films are relevant to more than one of these thematic elements The introductory essay explores the themes their representation in the films and the ways in which they may be elucidated by a psychoanalytically informed critique Brief paragraphs between the sections of the book facilitate the transitions In an appendix there are three essays titled *Mise en scene* *Whatever Flames Upon the Night* and *Mad Doctors* **Falling, Floating, Flickering** Hershini Bhana Young, 2023-01-17 Using black feminist methodology this book rethinks disability in African diasporic performance by insisting that differential embodiment and movement are essential to the creation of black sociality The Flickering Mind Todd Oppenheimer, 2004-12-07 *The Flickering Mind* by National Magazine Award winner Todd Oppenheimer is a landmark account of the failure of technology to improve our schools and a call for renewed emphasis on what really works American education faces an unusual moment of crisis For decades our schools have been beaten down by a series of curriculum fads empty crusades for reform and stingy funding

Now education and political leaders have offered their biggest and most expensive promise ever the miracle of computers and the Internet at a cost of approximately 70 billion just during the decade of the 1990s Computer technology has become so prevalent that it is transforming nearly every corner of the academic world from our efforts to close the gap between rich and poor to our hopes for school reform to our basic methods of developing the human imagination Technology is also recasting the relationships that schools strike with the business community changing public beliefs about the demands of tomorrow s working world and reframing the nation s systems for researching testing and evaluating achievement All this change has led to a culture of the flickering mind and a generation teetering between two possible futures In one youngsters have a chance to become confident masters of the tools of their day to better address the problems of tomorrow Alternatively they can become victims of commercial novelties and narrow measures of ability underscored by misplaced faith in standardized testing At this point America s students can t even make a fair choice They are an increasingly distracted lot Their ability to reason to listen to feel empathy is quite literally flickering Computers and their attendant technologies did not cause all these problems but they are quietly accelerating them In this authoritative and impassioned account of the state of education in America Todd Oppenheimer shows why it does not have to be this way Oppenheimer visited dozens of schools nationwide public and private urban and rural to present the compelling tales that frame this book He consulted with experts read volumes of studies and came to strong and persuasive conclusions that the essentials of learning have been gradually forgotten and that they matter much more than the novelties of technology He argues that every time we computerize a science class or shut down a music program to pay for new hardware we lose sight of what our priority should be enlightened basics Broad in scope and investigative in treatment *The Flickering Mind* will not only contribute to a vital public conversation about what our schools can and should be it will define the debate

A Flickering Flame Reva Spiro Luxenberg, 2014-03-10 *A FLICKERING FLAME* is a compelling tale about Jeffrey Shulman a brilliant pathological liar an emotionally scarred man with a rare condition named by psychiatrists as *Pseudologia fantastica* It is an engrossing chronicle of his life from his infancy when he was abused to when he becomes a convincing impostor to a time when his wife attempts to murder him with a 357 magnum aimed at his chest and his subsequent struggle to survive and get custody of his children
