## BEFORE YOU BEGIN

Before using this headset, read the headset label and user information carefully and make it accessible.

Take a headset before you get started to become familiar with what you will be hearing.

## 1 CHARGE YOUR HEADSET

Charge your headset's battery for 2 hours.

- 1 Plug the Motorola charger into the end of the headset.
- 2 The indicator light will turn red when the battery is charging. It may take up to 1 minute for the indicator light to turn on when the headset battery is fully charged about 2 hours. The indicator light turns green.

3 Disconnect the charger.

Note: Headset is not compatible with charging.

## 2 START BLUETOOTH FEATURE

Your Phone

The phone's Bluetooth feature is off by default. To use your headset, you must turn on the Bluetooth feature on your phone.

For most Motorola phones, go to the main screen.

- 1 Press **[Menu]**, **[Settings]**, **[Location]**, **[Bluetooth On]**, **[On]**.
- 2 Select **[Phone]**.
- 3 Select **[Change]**.
- 4 Select **[On]**.
- 5 Press **[Back]** to return to the Bluetooth feature. The Bluetooth feature remains on until you turn the feature off.

Note: Some phones do not have Bluetooth phones. For other phones, see **troubleshooting** for help.

## 3 PAIR

Your Headset and Phone

Before you can use your headset, you must get them to work with your phone.

### Step 1: Enable Headset & Bluetooth Mode

Press on headset by pressing the headset button to enable auto pairing. After a short moment, the indicator light will be steadily lit in blue to indicate headset is in pairing mode.

If the headset does not enter pairing mode, see **troubleshooting** for help.

## PAIR continued

Your Headset and Phone

### Step 2: Set Your Phone to Look for Your Headset

For most Motorola phones:

- 1 On your Motorola phone, press **[Menu]**, **[Settings]**, **[Location]**, **[Bluetooth On]**, **[On]**.
- 2 Select **[Phone]**.
- 3 Select **[Change]**.
- 4 Select **[On]**.
- 5 Select **[On]**.

When your headset successfully pairs with your phone, the indicator light flashes white quickly.

Note: Some phones do not have Bluetooth phones. For other phones, see **troubleshooting** for help.

## 4 TEST AND USE

Your phone and headset are now paired and ready to make and receive calls. To confirm they are working properly, make a call.

- 1 Place the headset over your ear.
- 2 On the phone, use the number you want to call and press **[Call]** key on your phone.
- 3 If your phone and headset are successfully paired, you will hear ringing on the headset.

After you have successfully paired your phone and headset, you don't need to repeat these steps. For safety, ensure that your headset is turned off and that your phone is in Bluetooth battery if On.

To save battery power, turn off the headset when you don't use it for an extended time by closing the headset.

## USING A SECOND PHONE?

Your headset allows a simultaneous, dual-point connection to two Bluetooth phones.

To use a second phone to your headset, follow these steps:

- 1 Turn off any phones already paired with your headset.
- 2 Turn off your headset by closing the headset button.
- 3 Perform Step 2 ("Start Bluetooth Feature"), Step 3 ("Pair"), and Step 4 ("Pair with the") to pair your headset with your second phone.
- 4 To connect to both phones, turn on the phone.
- 5 Once the headset button and then is ready, the headset automatically connects to both phones.

## TIPS FOR USING HEADSET WITH TWO PHONES

Use the following tips when operating the headset while connected to two phones:

- The most recently paired phone connected to the headset is always the primary phone. The other phone is listed for secondary phone.
- Incoming calls can be answered from both phones. When answering a call, the other phone is disconnected from the headset. When the call ends, connection to the phone is automatically reestablished.
- Since that calls can be made from either phone, use different key strokes to select which phone to make a call to the "dialing" key for answer.
- Redialing a call will dial the number on the phone with the last outgoing call.

## USING YOUR HT10

Your Features and Functions Guide at the bottom will be information on using your HT10.

## TROUBLESHOOTING

### My headset will not enter pairing mode.

Make sure that the headset is properly paired with the headset and turned off. If the indicator light is flashing in blue, turn off the other device, turn on the headset, and repeat the pairing process. The indicator light becomes steady in a blue following the headset is now in pairing mode.

### My phone doesn't find my headset.

Make sure the indicator light on your headset is on. It is a must and check when your phone is searching for devices near it.

### My headset worked before but now it's not working.

Make sure your phone is on and the Bluetooth feature is turned on in your phone settings. If the Bluetooth feature was turned off in your phone or the headset, you may need to repeat the Bluetooth feature steps. Turn off your phone and headset again from the phone.

This article will explore the advantages of Gn 710user Guide books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Gn 710user Guide books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents.
