Beginners Girish Patro, 2019-12-30 We must agree that the role of Arts Commerce *Hot as Loud* where hot can be a touch or taste sensation and loud loudness or volume control in your remote or a dedicated knob in your playback system as a listening sensation. If we put an analogy of learning audio recording skills with riding a bike, then the author loves to explain the bike riding skills, maintenance of a bike, introducing recent technology, used safety precautions for the biker, traffic rules and regulations, but the author hasn't explained the features and functions of different products, different brands of bikes, because features and functions change according to recent technology development. And features and functions of different products, different brands of bikes can be learnt through their respective official websites so that the learner as a customer will make his/her own decision about purchasing a product, certain brand of a bike as per his/her requirements. In this book, the author may have mentioned few products as examples to focus on the Technology applied in the products that doesn't mean he promotes those products. We can't rely on technology to correct a major amount of errors because it has some limitations. For a limited time period, the technology can be used to correct a minimum amount of errors. It is better to use technology in methods for practicing more of the arts or skills so that the error will be reduced at the input. Girish Patro
