At last there's a BetterPhoto guide to exposure packed with BetterPhoto's signature assignments, diagrams, tips, and illustrations. It's like a full scale photography course between the covers of the book. All taught the BetterPhoto way just like photographers learn at the top photography instruction site on the web. **Desktop Support Resource Guide** TechRepublic, Incorporated, 2003-08 *Human-Computer Interaction - INTERACT 2009* Tom Gross, Jan Gulliksen, Paula Kotzé, Lars Oestreicher, Philippe Palanque, Raquel Oliveira Prates, Marco Winckler, 2009-08-18 INTERACT 2009 was the 12th of a series of INTERACT international conferences supported by the IFIP Technical Committee 13 on Human Computer Interaction. This year INTERACT was held in Uppsala, Sweden, organized by the Swedish Interdisciplinary Interest Group for Human Computer Interaction, STIMDI, in cooperation with the Department of Information Technology at Uppsala University. Like its predecessors, INTERACT 2009 highlighted both to the academic and to the industrial world the importance of the human computer interaction (HCI) area and its most recent breakthroughs on current applications. Both experienced HCI researchers and professionals as well as newcomers to the field interested in designing or evaluating interactive software, developing new interaction technologies, or investigating overarching theories of HCI found in INTERACT 2009 a great forum for communication with people of similar interests to encourage collaboration and to learn. INTERACT 2009 had Research and Practice as its special theme. The reason we selected this theme is that the research within the field has drifted away from the practical applicability of its results and that the HCI practice has come to disregard the knowledge and development within the academic community.
