Jones, James Dobbins, Daniel Byman, Christopher S. Chivvis, Ben Connable, Jeffrey Martini, Eric Robinson, Nathan Chandler, 2017-04-20 The Islamic State has lost substantial amounts of territory but continues to conduct and inspire attacks around the world This report assesses the threat the Islamic State poses to the United States and examines strategies to counter the group and prevent a resurgence of the Islamic State or other Salafi jihadist groups **Perilous Partners** Ted Galen Carpenter, Malou Innocent, 2015-09-22 American leaders have cooperated with regimes around the world that are to varying degrees repressive or corrupt Such cooperation is said to serve the national interest But these partnerships also contravene the nation's commitments to democratic governance civil liberties and free markets During the Cold War policymakers were casual about sacrificing important values for less than compelling strategic rationales Since the 9 11 attacks similar ethical compromises have taken place although policymakers now seem more selective than their Cold War era counterparts Americans want a foreign policy that pursues national interests while observing American values How might that reconciliation of interest and morality be accomplished In *Perilous Partners* authors Ted Galen Carpenter and Malou Innocent provide a strategy for resolving the ethical dilemmas between interests and values faced by Washington They propose maintaining an arm's length relationship with authoritarian regimes emphasizing that the United States must not operate internationally in ways that routinely pollute American values It is a strategy based on ethical pragmatism which is the best way to reconcile America's strategic interests and its fundamental values *Perilous Partners* creates a strategy for conducting an effective U S foreign policy without betraying fundamental American values *Countering Terrorism and Insurgency in the 21st Century* James J. F. Forest, 2007-06-30 The attacks of September 11 2001 inaugurated a new global era of counterterrorism policy and activity led by the United States *Countering Terrorism and Insurgency in the 21st Century* analyzes the most significant dimensions of combating terrorism including considerations of strategic and tactical issues hard power soft power and counterintelligence the need to thwart sources and facilitators weak governments ill conceived foreign policy and trafficking in drugs guns and humans and the incorporation of lessons learned thus far from combating terrorism around the globe Since the dawn of the new millennium combating terrorism has become a primary focus of security professionals throughout the world The attacks of September 11 2001 inaugurated a new global era of counterterrorism policy and activity led by the United States while many countries from Algeria and Spain to Sri Lanka and Indonesia have redoubled their efforts to combat their own indigenous terrorism threats In the United States the counterterrorism goals identified in the National Strategy for Combating Terrorism 2006 can only be achieved through significant multinational cooperation These goals are to advance effective democracies as the long term antidote to the ideologies of terrorism to

prevent attacks by terrorist networks to deny terrorists the support and sanctuary of rogue states to deny terrorists control of any nation they would use as a base and launching pad for terror and to lay the foundations and build the institutions and structures we need to carry the fight forward against terror and help ensure our ultimate success At this point in the development of the global counterterrorism efforts it is particularly important to pause for reflection on a number of critical questions What do we know about effectively countering terrorism What are the characteristics of successful or unsuccessful counterterrorism campaigns What do we need to learn in order to do this better Countering Terrorism and Insurgency in the 21st Century addresses these and related questions contributing to national security policy as well as to our understanding of the terrorist threat and how it can be defeated Volume 1 Strategic and Tactical Considerations examines issues of hard power soft power and intelligence counterintelligence Volume 2 Sources and Facilitators covers state failure border controls democracy promotion networks and trade and trafficking and societal issues Volume 3 Lessons Learned from Combating Terrorism and Insurgency includes case studies of counterterrorism operations e g the hijacking of the Achille Lauro the 1993 bombing of the World Trade Center and the capture of key terrorist suspects like Ramzi Youssef and Khalid Sheikh Mohamad and case studies of long term efforts to combat terrorism e g the Basques in Spain the Tamil Tigers in Sri Lanka Israel s struggle against Palestinian terror organizations Peru and Sendero Luminoso and Japan and Aum Shinrikyo

Terrorism and Global Security Ann E. Robertson, 2010-06-23 Presents a guide to the issues of global security and terrorism including primary sources important documents research tools organizations and notable persons Military Review ,2008 *Counterinsurgency Reader II* ,2008 *Professional Journal of the United States Army* ,2008 **The Islamic Challenge in Europe** Raphael Israeli, 2011-12-31 Since the World Trade Center attacks in New York on September 11 2001 Europe has been plagued by Islamist attacks that have taken many lives and disrupted many services Considerable attention has been paid to radical Islamist attacks on the United Kingdom France and Germany but far less focus has been on the Islamist extremist impact on the rest of Europe This book warns all Europeans but Middle Easterners as well that they are not immune to terror That terror is confined to Jews and Israel is a myth Muslim extremist attacks have taken place against other Muslim nations as well as European nations in which Jewish influence or Israeli support is negligible The waves of Muslim recrimination against the West have given rise to internal struggles within the Arab world played out in terrorist acts Muslim brotherhoods have defined a global war against other religions nations and cultures that stray from the principles of fundamentalism a cultural and military jihad Just where religious identity supervenes national identity has become a critical turning point Israeli s book shows that the line between moderates and extremists within the Islamic fold is vague ambiguous and in certain situations non existent It draws attention to polls and public sentiments of the Islamic faithful and emphasizes the Islamic attack on modernization and its cultural sources This timely volume is addressed to those in the West who are not accustomed to thinking in apocalyptic terms Israeli provides painstaking details of European

responses to Islamist challenges particularly those who prefer pragmatic compliance rather than response He demonstrates that Islamic extremism continues to grow in the heartland of the European world This is neither an optimistic nor pessimistic book its disturbing message may be a wake up call to some It is a necessary read for those who want to go beyond news opting for a more intellectual and comprehensive diet Preventing Chemical Weapons Michael Crowley, Malcolm Dando, Lijun Shang, 2018-08-20 The life and chemical sciences are in the midst of a period of rapid and revolutionary transformation that will undoubtedly bring societal benefits but also have potentially malign applications notably in the development of chemical weapons Such concerns are exacerbated by the unstable international security environment and the changing nature of armed conflict which could fuel a desire by certain States to retain and use existing chemical weapons as well as increase State interest in creating new weapons whilst a broader range of actors may seek to employ diverse toxic chemicals as improvised weapons Stark indications of the multi faceted dangers we face can be seen in the chemical weapons attacks against civilians and combatants in Iraq and Syria and also in more targeted chemical assassination operations in Malaysia and the UK Using a multi disciplinary approach and drawing upon an international group of experts this book analyses current and likely near future advances in relevant science and technology assessing the risks of their misuse The book examines the current capabilities limitations and failures of the existing international arms control and disarmament architecture notably the Chemical Weapons Convention in preventing the development and use of chemical weapons Through the employment of a novel Holistic Arms Control methodology the authors also look beyond the bounds of such treaties to explore the full range of international law international agreements and regulatory mechanisms potentially applicable to weapons employing toxic chemical agents in order to develop recommendations for more effective routes to combat their proliferation and misuse A particular emphasis is given to the roles that chemical and life scientists health professionals and wider informed activist civil society can play in protecting the prohibition against poison and chemical weapons and in working with States to build effective and responsive measures to ensure that the rapid scientific and technological advances are safeguarded from hostile use and are instead employed for the benefit of us all The Encyclopedia of Crime and Punishment Wesley G. Jennings, George E. Higgins, Mildred M. Maldonado-Molina, David N. Khey, 2016-01-19 The Encyclopedia of Crime and Punishment provides the most comprehensive reference for a vast number of topics relevant to crime and punishment with a unique focus on the multi interdisciplinary and international aspects of these topics and historical perspectives on crime and punishment around the world Named as one of Choice s Outstanding Academic Titles of 2016 Comprising nearly 300 entries this invaluable reference resource serves as the most up to date and wide ranging resource on crime and punishment Offers a global perspective from an international team of leading scholars including coverage of the strong and rapidly growing body of work on criminology in Europe Asia and other areas Acknowledges the overlap of criminology and criminal justice with a number of disciplines such as sociology psychology
