Seniors Bryan Bent,2021-08-20 For most of the Apple TV 4K might well not exist in a market where nearly every new TV market where I load them with my favorite streaming apps including Apple TV and set it back to superfluous. So why get an Apple TV 4K? What does it bring to the home entertainment equation that your existing smart TV doesn't let dig into? For me, it's Apple TV 4K, a smart set back capable of uh-ing out a 4K HDR movie. It's the right apps for all major streaming platforms like Netflix, Hulu, Amazon Prime, Disney Plus, YouTube TV, and more, with built-in access to all original content on platform Apple TV. Apple TV 4K is a little game that you can load onto an Apple TV 4K and in the big screen with a controller if supported. If you work out with Apple Fitness, you can access workouts directly from the device as well and it'll sync with your Apple Watch. This is the first generation of Apple TV to replace a newly designed remote with a touch-sensitive click wheel at the top, reminiscent of old school PlayStation instead of the hard-to-navigate touch surface of the previous generation. It's a little bit of a pain, but it's up there. Both frustrating and lovely. The old remote is obvious. You won't have all kinds of functions on the Apple TV 4K. It'll even suggest things based on how often you use them. The Home Screen is navigable and readable to you. Shows games like Apple Fitness and more. If you want to play Apple Arcade games on your TV, Apple TV 4K is the best way to do it. With the new version of the games, you'll have your third-party controller support, a built-in Apple Game console, but you'll need to hunt a bit to find games that will work well on the big screen.
