Manual Arts Lockdown:

Lockdown Cultures Stella Bruzzi, Maurice Biriotti, 2022-11-10 Lockdown Cultures is both a cultural response to our extraordinary times and a manifesto for the arts and humanities and their role in our post pandemic society This book offers a unique response to the question of how the humanities commented on and were impacted by one of the dominant crises of our times the Covid 19 pandemic While the role of engineers epidemiologists and of course medics is assumed Lockdown Cultures illustrates some of the ways in which the humanities understood and analysed 2020 21 the year of lockdown and plague Though the impulse behind the book was topical underpinning the richly varied and individual essays is a lasting concern with the value of the humanities in the twenty first century Each contributor approaches this differently but there are two dominant strands how art and culture can help us understand the Covid crisis and how the value of the humanities can be demonstrated by engaging with cultural products from the past The result is a book that serves as testament to the humanities reinvigorated and reforged sense of identity from the perspective of UCL and one of the leading arts and humanities faculties in the world It bears witness to a globally impactful event while showcasing interdisciplinary thinking and examining how the pandemic has changed how we read watch write and educate More than thirty individual

contributions collectively reassert the importance of the arts and humanities for contemporary society **Theater of Lockdown** Barbara Fuchs, 2021-09-09 Offering one of the first scholarly examinations of digital and distanced performance since the global shutdown of theaters in March 2020 Barbara Fuchs provides both a record of the changes and a framework for thinking through theater's transformation Though born of necessity recent productions offer a new world of practice from multi platform plays on Zoom WhatsApp and Instagram to enhancement via filters and augmented reality to urban distanced theater that enlivens streetscapes and building courtyards Based largely outside the commercial theater these productions transcend geographic and financial barriers to access new audiences while offering a lifeline to artists This study charts how virtual theater puts pressure on existing assumptions and definitions transforming the conditions of both theater making and viewership How are participatory site specific or devised theater altered under physical distancing requirements How do digital productions blur the line between film and theater What does liveness mean in a time of pandemic In its seven

Greek Tragedy in a Global Crisis Mario Telò, 2023-05-18 What does it mean to read Greek tragedy in a pandemic a global crisis How can Greek tragedy address urgent contemporary troubles One of the outstanding and most widely read theorists in the discipline Mario Tel brings together a deep understanding of Greek tragedy and its most famous icons with contemporary times In close readings of plays such as *Alceste*, *Antigone*, *Bacchae*, *Hecuba*, *Oedipus the King*, *Prometheus Bound* and *Trojan Women* our experience is precariously refracted back in the formal worlds of plays named after and to an extent epitomized by tragic characters Structured around four thematic clusters Air Time Faces Communities Ruins and Insurrections this book presents timely interventions in critical theory and in the debates that matter to us as disaster becomes routine in the time out of joint of a post pandemic world Violently encompassing all pre-existing and future crises relational political and ecological the pandemic coincides with the queer unhistoricism of tragedy and its collapsing of present past and future readerships

Law and Disorder Illan Rua Wall, 2020-12-20 Focusing on the moment when social unrest takes hold of a populace *Law and Disorder* offers a new account of sovereignty with an affective theory of public order and protest In a state of unrest the affective architecture of the sovereign order begins to crumble The everyday peace and calm of public space is shattered as sovereign peace is challenged In response the state unleashes the full force of its exceptionality and the violence of public order policing is deployed to restore the affects and atmospheres of habitual social relations This book is a work of contemporary critical legal theory It develops an affective theory of sovereign orders by focusing on the government of affective life and popular encounters with sovereignty The chapters explore public order as a key articulation between sovereignty and government In particular policing of public order is exposed as a contemporary mode of exceptionality cast in the fires of colonial subjection The state of unrest helps us see the ordinary affects of the sovereign order but it also points to crowds as the essential component in the production of unrest The atmospheres produced by crowds seep out from the squares and parks of occupation settling on cities and states In these new atmospheres new possibilities of political and social organisation begin to appear In short crowds create the affective condition in which the settlement at the heart of the sovereign order can be revisited This text thus develops a theory of sovereignty which places protest at its heart and a theory of protest which starts from the affective valence of crowds This book's examination of the relationship between sovereignty and protest is of considerable interest to readers in law politics and cultural studies as well as to more general readers interested in contemporary forms of political resistance
