

Operation

Ignition Noise Interference

Use of a mobile receiver at low signal levels is normally limited by the presence of electrical noise. Under most operating conditions, when signal level is adequate the background noise does not present a serious problem. Also, when extremely low level signals are being received, the transmitter may be operated with vehicle engine turned off. The unit requires very little current and therefore will not significantly discharge the vehicle battery.

Even though this radio has an automatic noise limiter, in some installations ignition interference may be high enough to make good communications impossible. Consult your authorized Cobra Dealer or a two-way radio technician for help in locating and correcting the source of ignition noise.

Temporary Mobile Operation

For **Temporary Mobile Operation**, you may want to purchase an additional cigarette lighter adapter from your Cobra dealer. This adapter and a magnetic mount antenna allow you to quickly "install" your transmitter for temporary use.

WIRING

Red Wire is connected to positive side of vehicle under by. **Black Wire** is connected to negative side contacts.

Radio needs to CH 9 when connected to cigarette lighter plug.

When using the unit with cigarette adapter, turn **off** when not in use to avoid draining the battery.

Operation

Operating Procedure to Receive

Be sure that power cord, antenna and microphone are connected to the proper connectors before proceeding further. The **CBFR** switch should be in the **OFF** position.

To receive

1. Turn the radio set to receiving the **On (OFF) Volume** knob clockwise.
2. Rotate the **Squelch** knob counterclockwise until incoming signal is heard.
3. Select the desired channel.
4. Set the **On (OFF) Volume** knob and the **Squelch** knob to a comfortable listening level.

Operating Procedure to Transmit

Be sure the antenna is properly connected to the radio before transmitting. Prolonged transmitting without an antenna, or with a poorly matched antenna, could cause damage to the transmitter.

To transmit

1. Select the desired channel.
2. The receiver and transmitter are controlled by the **Push-to-Talk** switch on the microphone. Press the switch and the transmitter is activated, release switch to receive. When transmitting on a clear channel, hold the microphone two inches from the mouth and speak clearly in a normal voice.
