- 3.3 Given  $T_n = 13 - 3n$ :
- 3.3.1 Which term in the series would be equal to  $-179$ . (3)
- 3.3.2 Determine the numerical value for the 11<sup>th</sup> term. (2)
- 3.4 James and John look at the following patterns:

| Pattern 1                                                                           | Pattern 2                                                                           | Pattern 3                                                                           |
