Carl Sagan was perhaps one of the most influential scientific minds that the world has ever experienced. When he learned that stars were actually extremely distant suns, his world was changed and the magnitude of the universe opened up to him. Another strong motivator into science came with his reading of a popular science fiction book of the time, *The Barroths Tales*. The stories were not extremely sound scientifically, but still presented ideals of adventure and the unknown. The idea that life could exist elsewhere in the universe fascinated Sagan and remained with him for the rest of his life (Escher).

Perhaps one of Sagan's most famous individual accomplishments was his involvement with the *Pioneer 10 Space Probe*. The probe was created to be the first object to exit our galaxy. Sagan acknowledged that the chances of anything actually discovering the probe were astronomical, but believed that it was important to promote public appreciation for science and thought the project to be "all in good fun" (McDonough 50).

Public appreciation for science was, in fact, what made Sagan the "superstar scientist" that we hear of today. His ability to portray complex

Why They Can't Write John Warner, 2020-03-17 An important challenge to what currently masquerades as conventional wisdom regarding the teaching of writing There seems to be widespread agreement that when it comes to the writing skills of college students we are in the midst of a crisis In *Why They Can't Write* John Warner who taught writing at the college level for two decades argues that the problem isn't caused by a lack of rigor or smartphones or some generational character defect Instead he asserts we're teaching writing wrong Warner blames this on decades of educational reform rooted in standardization assessments and accountability We have done no more Warner argues than conditioned students to perform writing related simulations which pass temporary muster but do little to help students develop their writing abilities This style of teaching has made students passive and disengaged Worse yet it hasn't prepared them for writing in the college classroom Rather than making choices and thinking critically as writers must undergraduates simply follow the rules such as the five paragraph essay designed to help them pass these high stakes assessments In *Why They Can't Write* Warner has crafted both a diagnosis for what ails us and a blueprint for fixing a broken system Combining current knowledge of what works in teaching and learning with the most enduring philosophies of classical education this book challenges readers to develop the skills attitudes knowledge and habits of mind of strong writers *Prison Industrial Complex For Beginners*

James Braxton Peterson, 2016-02-10 *Prison Industrial Complex For Beginners* is a graphic narrative project that attempts to distill the fundamental components of what scholars activists and artists have identified as the Mass Incarceration movement in the United States Since the early 1990s activist critics of the US prison system have marked its emergence as a complex in a manner comparable to how President Eisenhower described the Military Industrial Complex Like its institutional cousin the Prison Industrial Complex features a critical combination of political ideology far reaching federal policy and the neo liberal directive to privatize institutions traditionally within the purview of the government The result is that corporations have capital incentives to capture and contain human bodies The Prison Industrial Complex relies on the law and order ideology fomented by President Nixon and developed at least partially in response to the unrest generated through the Civil Rights Movement It is and has been enhanced and emboldened via the US war on drugs a slate of policies that by any account have failed to do anything except normalize the warehousing of nonviolent substance abusers in jails and prisons that serve more as criminal training centers than as redemptive spaces for citizens who might re enter society successfully *Prison Industrial Complex For Beginners* is a primer for how these issues emerged and how our awareness of the systems at work in mass incarceration might be the very first step in reforming an institution responsible for some of our most egregious

contemporary civil rights violations *Research Methods for Leisure, Recreation and Tourism, 2nd Edition* Ercan Sirakaya-Turk, Muzaffer Uysal, William E Hammitt, Jerry J Vaske, 2017-04-13 Describing the fundamental elements of research methods for leisure recreation and tourism this new edition of a popular textbook is updated throughout It covers the measurement of variables sampling questionnaire design and evaluation methods and also a wider discussion of writing proposals communicating research findings cross cultural research and the use of new technologies in conducting research Written by internationally renowned researchers in an accessible style this book introduces both undergraduate and graduate students to the vital skills they will need to succeed in the leisure recreation tourism and hospitality industries
