*Églises et santé dans le Tiers Monde. Hier et aujourd'hui* Jean Pirotte, Henri Derroitte, 2016-05-18. The fifteen papers presented here examine three centuries of close if sometimes ambiguous links between Christian mission and medicine. The authors who include theologians, historians, sociologists, physicians and representatives of major international health care organisations address themselves to such questions as: How is one to assess the results of past missionary health care effort? How are modern day Christian organisations to cope with the burden of institutions set up in the past? What links should the Churches maintain with official medical organisations? What position should the Churches take on the faith v healing debate begun by certain religious groups? And how is one to lay the groundwork of a theology of health and healing? The complexity of the issues outlined here can alas provide no easy answers. Quinze auteurs compris théologiens, historiens, sociologues, médecins et responsables d'organisations sanitaires ont centré leurs réflexions sur le rôle des églises chrétiennes dans le domaine de la santé hier dans les pays de mission aujourd'hui dans ces mêmes régions où se produit une véritable inкультuration du christianisme. Dans cet ouvrage ils abordent plusieurs questions fondamentales: comment valuer les résultats et lacunes de l'action sanitaire des missions dans le passé? Les communautés chrétiennes actuelles doivent elles porter le poids d'institutions mises en place hier? Quels rapports les églises doivent elles entretenir avec les organisations médicales officielles? Comment les églises se situent elles dans la dialectique foi/guérison/développement par certains groupes religieux? Plus profondément comment poser les jalons d'une théologie de la santé et de la guérison? Trouver les réponses sur ces questions complexes c'est une tâche très difficile.
