Sister Death Beatrice Marovich, 2023-02-07 Winner 2024 Bela Kornitzer Alumni Award Drew University Life and death are commonly seen as representing the starkest of binaries Death is the ultimate adversary of all that lives Beatrice Marovich argues that such understandings of mortality have been deeply influenced by a strain of Christian political theology that has left its mark on both religious and secular narratives Adapting the figure of Sister Death from Saint Francis of Assisi she calls for recognizing that life and death are family Drawing on a wide range of sources from Toni Morrison to Jacques Derrida psychoanalysis to grassroots death positive movements Marovich critiques a racialized political theology that pits life and death against each other in a state of endless war In a time of extinctions it is necessary to disrupt this dominant story in order to apprehend death as a collective multispecies event Sister Death proposes an alternative view in which life and death are not mortal enemies destined for mutual destruction Instead they are engaged in a contested tense and sometimes mutually empowering form of connection a sisterhood Eloquent and approachable this book deftly integrates the insights of a number of disciplines to provide a profound reconsideration of the relations between life and death Sister Death also features a series of original works by the artist Krista Dragomer that stage an ongoing conceptual conversation with the text

Life Against Death Norman O. Brown, 2014-10-16 A shocking and extreme interpretation of culture history and the father of psychoanalysis In Life Against Death The Psychoanalytical Meaning of History social philosopher Norman O Brown radically analyzes and critiques the work of Sigmund Freud Brown attempts to define a non repressive civilization draws parallels between psychoanalysis and the theology of Martin Luther and also examines the revolutionary themes present in western religious thought such as ideas found in the work of William Blake and Jakob Böhme Life Against Death cannot fail to shock if it is taken personally for it is a book which does not aim at eventual reconciliation with the views of common sense The highest praise one can give to Brown's book is that apart from its all important attempt to penetrate and further the insights of Freud it is the first major attempt to formulate an eschatology of immanence in the seventy years since Nietzsche

Susan Sontag One of the most interesting and valuable works of our time Brown s contribution to moral thought cannot be overestimated His book is far ranging thoroughgoing extreme and shocking It gives the best interpretation of Freud I know

Terrorism Joseba Zulaika,2009-12-15 In counterterrorism circles the standard response to questions about the possibility of future attacks is the terse one liner Not if but when This mantra supposedly conveys a realistic approach to the problem but as Joseba Zulaika argues in Terrorism it functions as a self fulfilling prophecy By distorting reality to fit their own worldview the architects of the War on Terror prompt the behavior they seek to prevent a twisted logic that has already played out horrifically in Iraq In short Zulaika contends counterterrorism has become pivotal in promoting terrorism Exploring the blind spots of counterterrorist doctrine Zulaika takes readers on a remarkable intellectual journey He contrasts the psychological insight of Truman Capote s In Cold Blood with The 9 11 Commission Report plumbs the

mindset of terrorists in works by Orianna Fallaci and Jean Genet maps the continuities between the cold war and the fight against terrorism and analyzes the case of a Basque terrorist who tried to return to civilian life Zulaika's argument is powerful, inventive and rich with insights and ideas that provide a new and sophisticated perspective on the War on Terror

In Life and Death LeRoy H. Aden, Explores faith's responses in the face of death either our own or a loved one how those responses effect our self reliance and belief in God and how faith can be challenged and strengthened Original **The Poetics of Death** Beatrice Martina Guenther, 1996-07-12 Traditionally the act of writing constitutes a challenge to the finality of death Yet writing as a subject for literary texts has its own tradition of imagery whose rhetoric is associated with loss rather than immortality The limit of death seems to force a more explicit analysis of the process of writing Writers consider the impact of their work on their readers or re-articulate the link between the written text and the subject it is meant to represent Each writer constructs a subversive text The conjunction of writing and death besides highlighting or demystifying the creative act leads in each case to a decidedly critical stance Guenther examines how Kleist's and Balzac's representations of death bring with them a critical awareness that calls attention to the historical context in which the texts are produced **Basic Writings of Existentialism** Gordon Marino, 2007-12-18 Edited and with an Introduction by Gordon Marino Basic Writings of Existentialism unique to the Modern Library presents the writings of key nineteenth and twentieth century thinkers broadly united by their belief that because life has no inherent meaning humans can discover we must determine meaning for ourselves This anthology brings together into one volume the most influential and commonly taught works of existentialism Contributors include Simone de Beauvoir Albert Camus Fyodor Dostoevsky Ralph Ellison Martin Heidegger Søren Kierkegaard Friedrich Nietzsche Jean Paul Sartre and Miguel de Unamuno y Jugo **Supplements** Martin Heidegger, 2012-02-01 This indispensable volume adds for the first time a comprehensive anthology of the most important of Martin Heidegger's recently discovered early essays Translated by preeminent Heidegger scholars these supplements to Heidegger's published corpus are drawn from his long series of early experimental constantly supplemental attempts at rethinking philosophy Written during 1910-1925 they precede Being and Time and point beyond to Heidegger's later writings when his famous turn took in part the form of a return to his earliest writings Included are discussions of Nietzschean modernism the mind's intentional relation to being and the problem of the external world the concept of time in the human and natural sciences the medieval theory of the categories of being Jaspers's Kierkegaardian philosophy of existence and its relation to Husserl's phenomenology being and factual life in Aristotle the being of man and God in Luther's primal Christianity and the relevance of Dilthey's philosophy of history for a new conception of ontology A detailed chronological overview of Heidegger's early education teaching research and publications is also included **Death-Drive** Robert Rowland Smith, 2010-04-30 Robert Rowland Smith takes Freud's work on the death drive and compares it with other philosophies of death Pascal Heidegger and Derrida in particular He also applies it in a new way to literature and art to

Shakespeare Rothko and Katharina Fritsch among others He asks whether artworks are dead or alive if artistic creativity isn't actually a form of destruction and whether our ability to be seduced by fine words means we don't put our selves at risk of death In doing so he proposes a new theory of aesthetics in which artworks and literary texts have a death drive of their own not least by their defining ability to turn away from all that is real and where the effects of the death drive mean that we are constantly living in imaginary rhetorical or artistic worlds The book also provides a valuable introduction to the rich tradition of work on the death drive since Freud

Key Features Includes a general introduction to the death drive Presents an original theory of aesthetics Analyses both theoretical and clinical psychoanalysis Offers in depth treatment of Freud Provides an overview of philosophies of death

Out of Control Richard A. Cohen, 2016-05-09 After the end of superstitious religion what is the meaning of the world Baruch Spinoza's answer is truth Emmanuel Levinas's is goodness science versus ethics In *Out of Control* Richard A. Cohen brings this debate to life providing a nuanced exposition of Spinoza and Levinas and the confrontations between them in ethics politics science and religion Spinoza is the control the inexorable defensive logic of administrative rationality where freedom is equated to necessity a seventeenth century glimpse of Orwellian doublespeak and Big Brother Levinas is the way out transcendence not of God being and logic but of the other person experienced as moral obligation To alleviate the suffering of others nothing is more important Spinoza wagers everything on mathematical truth discarding the rest as ignorance and illusion for Levinas nothing surpasses the priorities of morality and justice to create a world in which humans can be human and not numbers or consumers drudges or robots Situating these two thinkers in today's context *Out of Control* responds to the fear of dehumanization in a world flattened by the alliance of positivism and plutocracy It offers a nonideological ethical alternative a way out and up in the nobility of one human being helping another and the solidarity that moves from morality to justice

Being, Man, and Death James M. Damske, 2014-07-15 Death a perennial problem for philosophers and theologians is especially crucial in the thought of Martin Heidegger This penetrating commentary presents the concept of death as a unifying motif that illuminates many of the difficulties and obscurities of Heidegger's philosophy Heidegger comes to see death as revealing the ultimate meaning not only of human existence but of being itself He thus confers upon the concept a force and sharpness an ontological depth which is found in perhaps no other philosopher This study corroborates the much debated turning in Heidegger's philosophy Damske finds death to be the key not only to Heidegger's treatment of man and being but also the key to his shift of focus from man to being All Heidegger's various approaches to the theme of death are considered his existential phenomenological analysis of Dasein his discussions of art poetry history and language and his new phenomenological approach to the ordinary things of life The author approaches Heidegger on his own terms allowing the philosopher to speak for himself The present reading of Heidegger grows smoothly out of Heidegger's own intentions The result is a revealing study of Heidegger's philosophy in its entirety which answers some persistently perplexing questions about this difficult modern philosopher
