Funding and Financing Transport Infrastructure Athena Roumboutsos, Hans Voordijk, Aristeidis Pantelias, 2017-09-07 This book seeks to enhance understanding of the impacts of project setup and its implementation environment on project performance by leveraging information from the study of a rich set of European transport infrastructure project cases It puts forward a system's view of project delivery

and aims to serve as a strategic tool for decision makers and practitioners The proposed approach is not limited to specific stakeholder views On the contrary it allows stakeholders to formulate their own strategies based on an holistic set of potential implementation scenarios Furthermore by including cases of projects that have been influenced by the recent financial crisis the book aims to capitalise on experiences and provide guidelines as to the design and implementation of resilient projects delivered both through traditional as well as Public Private Partnership PPP models Finally the book proposes a new Transport Infrastructure Resilience Indicator and a corresponding project rating system that can be assessed with an eye to the future ultimately aiming to support the successful delivery of transport infrastructure projects for all stakeholders involved
