John Hattie, Laureate Professor, Deputy Dean of MGSE, Director of the Melbourne Education Research Institute, Melbourne Graduate School of Education. YOU are the architect in the mathematics classroom. When it comes to mathematics lessons, do you sometimes feel overly beholden to the required texts from which you teach? Do you wish you could break the mold but feel like you get conflicting guidance on the right things to do? How often do you find yourself in the last minute online scramble for a great task activity that will capture your students' interest and align to your state standards? In *The Mathematics Lesson Planning Handbook, Grades 3-5: Your Blueprint for Building Cohesive Lessons*, you'll learn the streamlined decision-making processes that will help you plan the focused, research-based, standards-aligned lessons your students need. This daily reference offers practical guidance for when and how to pull together mathematics routines, resources, and effective teaching techniques into a coherent and manageable set of lesson plans. Teaching by Design in Elementary Mathematics, Grades 2-3 Jennifer Stepanek, Melinda Leong, Linda Griffin, Lisa Lavelle, 2010-11-19 Strengthen your mathematics lessons through collaborative planning. *Teaching by Design in Elementary Mathematics* is a series of comprehensive professional development guides that help teachers investigate how students learn. Grounded in the latest research, this book is one of three volumes focused on grade-appropriate number and operations topics aligned with the Common Core State Standards. The capstone activity of each book guides the group through the co-creation and implementation of a prototype lesson. The teacher teams then evaluate the impact of the lesson on student learning and work together to revise it for maximum effectiveness. Through the process, teachers develop deeper content knowledge of important mathematical concepts, improved understanding of how students learn these mathematical ideas, a stronger foundation for developing effective lessons, and improving instruction. Enhanced
