Turning Average Instruction Into Great Instruction John O'Connor,2009-01-16 Turning Average Instruction into Great Instruction details a clear and concise approach to school improvement focusing school leaders on the critical factor that has the greatest impact on student achievement classroom instruction Decades of research demonstrate that what happens between teachers and students in our nation s classrooms has the greatest impact on how well those students learn The current trend in school reform is to tackle all aspects of a school in order to improve student achievement forcing school leaders to attempt to focus on the school culture use of materials community relations teachers pre service training the school s physical design classroom decorations and instruction Unfortunately such a wide scope leads to a lack of focus among school staff With his singular focus on classroom instruction what O Connor suggests is an antithesis to that approach School leaders will develop a common understanding of the high impact instructional components that should be seen in every classroom O Connor maps out how school leaders can align all personnel to systematically build training support and monitoring mechanisms that ensure that effective instruction becomes part of every classroom routine **The Same High**

getting blamed for things he didn't do and struggling to make friends it's safe to say that school isn't Chris's favorite place. It is however the craziest school you'll ever read about. His teacher has the strangest name Chris has ever heard and the students in his class are anything but normal. One kid even spends all day sticking random things up his nose. But that's not the end of the craziness. A Chicken Nugget Man is out there somewhere and people are terrified of him. Only kids can see the Chicken Nugget Man so a test is created to find kids smart enough to help capture him. Chris thinks there's no way he will ever pass the CRCT but as it turns out he might have a little help and a little hope after all. Atlanta Magazine, 2008-04
