Global Issues Shirley A. Fedorak, 2013-11-29 *Global Issues* is a pedagogically rich text that offers a unique way of looking at contemporary issues such as food security and global conflict from a cross cultural and multidisciplinary perspective. By exploring each issue in depth, students gain an applied understanding of more abstract concepts like conflict, globalization, culture, imperialism, human rights, and gender, while the cross cultural approach encourages students to view the world from outside the Western box. Designed for introductory level students in global and international studies, human geography, anthropology, sociology, and development studies, this highly accessible text offers instructors and students a unique way of matching the concepts they learn in the classroom with important issues in the world in which they live and work.

Twitter Dhiraj Murthy, 2018-03-02 Twitter is a household name, discussed for its role in national elections, natural disasters, and political movements, as well as for what some malign as narcissistic chatter. The first edition of Murthy's balanced and incisive book pioneered the study of this medium as a serious platform worthy of scholarly attention. Much has changed since Twitter's infancy, although it is more relevant than ever to our social, political, and economic lives. This timely second edition shows how Twitter has evolved and how it is used today. Murthy introduces some of the historical context that gave birth to the platform while providing up-to-date examples such as the Black Lives Matter movement and Donald Trump's use of Twitter in the US election. The chapters on journalism and social movements have been thoroughly updated, and completely new to this edition is a chapter on celebrities and brands. Seeking to answer challenging questions around the popular medium, the second edition of *Twitter* is essential reading for students and scholars of digital media.

Current and Emerging Issues in the Audiovisual Industry Mercedes Medina, Mónica Herrero, Alicia Urgellés, 2017-02-08 This book focuses on the challenges of competition in television broadcasting markets. How is the evolution from a two-sided market to platform economics reshaping competition in television broadcasting? How are new market dynamics changing competition for content creation and acquisition and the revenue streams? Will content remain king? Or will new competitive dynamics undermine the sustainable creation of high quality content, especially in small media markets?
