The Teachers' Lounge (Uncensored) Kelly Flynn,2012-11-08 This book was chosen by The Delta Kappa Gamma Society International as one of its Top 5 Must Reads for 2013 DKG is organized in 18 countries around the world and works to promote professional and personal growth for women educators and excellence in education Teachers step to the front of the classroom every day and do their darnedest to capture their student s attention and keep it But so many things get in the way unruly kids disagreeable parents homes so broken it is beyond imagining bureaucracy and red tape the influence of technology and the media a culture that celebrates misguided values and most intrusively government regulations that purport to improve teaching and learning but in fact are destroying it The Teachers Lounge Uncensored gives you a peek inside that classroom Kelly Flynn takes readers by the hand and says Come inside my school walk a mile in my halls and then we ll talk about education reform With breathtaking clarity and a healthy dose of humor Kelly Flynn shares with readers what all teachers know that when you teach in a public school there are days that you laugh days that you cry and days that you laugh until you cry Each student is surprisingly delightfully wildly different which is precisely why one size fits all education does not work Check out further praise for the book at the Reclaim Reform blog <http://bit.ly/1pD654W> **Still Waters**

Wayne McCamey,2022-09-08 When I became a principal my teachers gifted me with a book written by Philip Keller who wrote a book about taking care of his own flock of sheep Treating sheep with kindness and always watching for their safety is not unlike being a parent teacher or school principal doing the same activities for children or students in their care

Respected teachers voices are remembered and loved long after students graduate and have their own families Psalm 23 in the Classroom shares moments of kindness and difficulties that arise when working with students teachers and parents A shepherd and a teacher must have similar management skills for success to be achieved The last part of Psalm 23 in the Classroom contains eight biology lessons that were fun to teach because students were highly interested in the lessons The lesson comparing evolution to creation lasted for three days One day was spent on evolution theories one day on the biblical creation and one day on scientific information mentioned in scripture hundreds and even thousands of years before modern science confirmed what the Bible already explained The last lessons were about mankind s reproductive systems These lessons were taught for sixteen years without a problem from parents administrators or the Six O clock News When I became an elementary principal these same lessons were taught to grade 6 students without problems My favorite saying to students was Were the different components of male and female reproduction systems an accident of nature or were they planned to complement each other
