Beyond the Knowledge Trap Thomas Menkhoff, 2011 Based on the success of the World Scientific publication *Governing and Managing Knowledge* edited by Thomas Menkhoff Hans Dieter Evers and Chay Yue Wah in 2005 this unique volume presents 16 new theoretical practical papers on the strategic aspects of developing knowledge based economies with case studies from South

Korea Singapore Malaysia Thailand Vietnam Indonesia Philippines and Uzbekistan A key question which the book seeks to answer is what Asian policy makers and leaders in government economy and society can do to further enhance learning and capability formation so as to foster sustainable development in an increasingly globalized world It addresses the politico cultural and socio economic challenges of effectively managing both knowledge resources and coping with the great digital divide created by globalization continuous technology innovations and rapid external change A key objective of the publication is to enable latecomers in the knowledge race to understand some of the critical success factors of sustainable knowledge based development and what it takes to build a resilient knowledge based economy **Knowledge Management** Murray E. Jennex, 2008-01-01 Provides comprehensive in depth coverage of all issues related to knowledge management including conceptual methodological technical and managerial issues Presents the opportunities future challenges and emerging trends related to this subject **Knowledge and Economic Conduct** Nico Stehr, 2002-01-01 Changing economic circumstances namely an end to the primacy of labour and property as determinants of prosperity have created a need for a new theoretical platform one that transcends standard economic discourse **Understanding Society and Knowledge** Nico Stehr, 2023-07-01 Understanding Society and Knowledge proposes that knowledge rather than nature violence or power provides the basis of and the driving force behind human action in modern society It demonstrates how the legally enforced restricted use of knowledge enables the transformation of the knowledge society into knowledge capitalism **Knowledge** Marian Adolf, Nico Stehr, 2016-09-22 As we move through our modern world the phenomenon we call knowledge is always involved Whether we talk of know how technology innovation politics or education it is the concept of knowledge that ties them all together But despite its ubiquity as a modern trope we seldom encounter knowledge in itself How is it produced where does it reside and who owns it Is knowledge always beneficial will we know all there is to know at some point in the future and does knowledge really equal power This book pursues an original approach to this concept that seems to define so many aspects of modern societies It explores the topic from a distinctly sociological perspective and traces the many ways that knowledge is woven into the very fabric of modern society **The Knowledge Society** Gernot Böhme, Nico Stehr, 1986-07-31 The original essays collected here under the general title of The Knowledge Society were first commissioned for a conference held in the late fall of 1984 at the Technische Hochschule Darmstadt West Germany The conference in Darmstadt saw a larger number of contributions presented than could be accommodated in this edition of the Sociology of the Sciences Yearbook However all contributions were important and affected those published in this collection We are therefore grateful to all participants of the Darmstadt conference for their presentations and for their intense useful as well as thoughtful discussion of all papers Those chosen for publication in the Yearbook and those undoubtedly to be published elsewhere have all benefitted considerably from our discussions in Darmstadt which also included a number of the members of the editorial board of the Yearbook In addition we are pleased that the authors were able to read and comment

further on each other's papers prior to publication. As is the case in every endeavor of this kind we have incurred many debts and are only able to acknowledge these at this point publicly while expressing our sincere thanks and appreciation for all the intellectual support and the considerable labor invested by a number of persons in the realization of the collection.

Knowledge Capitalism Nico Stehr, 2022-06-01 In his newest book Stehr builds on his classic book *Knowledge Societies* 1994 to expand the concept toward one of knowledge capitalism for a now much changed era. It is not only because of the onset of the Covid 19 pandemic that we are living in a new epoch; it is the idea that modern societies increasingly constitute comprehensive knowledge societies under intensive capitalism whereby the legal encoding of knowledge through national and international law is the lever that enables the transformation of the knowledge society into knowledge capitalism. The Trade-Related Aspects of Intellectual Property Rights agreement negotiated between 1986 and 1994 as part of the World Trade Organization is the backbone of the modern society and marks a clear historical demarcation and although knowledge capitalism is primarily an economic development, the digital giants who are in the driver's seat have significant effects on the social structure and culture of modern society.

Understanding the Knowledge Society Andrea Cerroni, 2020-05-29 Complex knowledge and ideas are generated, shared, and accessed globally. Andrea Cerroni turns to this knowledge society to offer a comprehensive social theory of its processes to bridge the gap between knowledge and democracy. Drawing on a long-term historical perspective, Cerroni assembles a cultural matrix comprising ancient myths on nature, society, and knowledge and modern myths of reductionism, individualism, and relativism to improve our contemporary sociological imagination.
