

The Project window

Window Overview

The Project window is the main window in Cubase. This provides you with an overview of the project, allowing you to navigate and perform large scale editing. Each project has one Project window.

About tracks

The Project window is divided vertically into tracks, with a timeline running horizontally from left to right. The following track types are available:

Track type	Description
Audio	For recording and playing back audio events and audio parts. Each audio track has a corresponding audio channel in the MixConsole. An audio track can have any number of automation tracks for automating channel parameters, effect settings, etc.
Folder	Folder tracks function as containers for other tracks, making it easier to organize and manage the track structure. They also allow you to edit several tracks at the same time, see "Organizing tracks in folder tracks" on page 97 .
FX Channel	FX channel tracks are used for adding send effects. Each FX channel can contain up to eight effect processors – by routing sends from an audio channel to an FX channel, you send audio from the audio channel to the effect(s) on the FX channel. Each FX channel has a corresponding channel in the MixConsole – in essence an effect return channel, see the chapter "Audio effects" on page 227 . All FX channel tracks are automatically placed in a special FX channel folder in the track list, for easy management. An FX channel can also have any number of automation tracks for automating channel parameters, effect settings, etc.

Estudios migratorios latinoamericanos ,2005 *La administración de Cuba en los siglos XVIII y XIX* Varios

autores,2017-07-01 El papel de Cuba en la fase final del imperio español en América fue extraordinariamente relevante desde diferentes perspectivas. Aparte de su valor simbólico como uno de los últimos vestigios de la América española, Cuba fue un instrumento de financiación y enriquecimiento de unas elites que desempeñaron un relevante papel político en la metrópoli. Fue el caso del general Serrano capitán general de la Isla entre 1859 y 1862, esposo de una de las aristocratas más relevantes de la alta sociedad habanera como la condesa de San Antonio y hombre clave en la revolución de 1868. Así pues, la imbricación de las elites hispano-cubanas tendrá consecuencias tanto en la colonia como en la metrópoli y el debate sobre el mantenimiento o abolición de la esclavitud en la Isla encenderá los ánimos en el sexenio revolucionario. Pero además la obra colectiva *La Administración de Cuba en los siglos XVIII y XIX* va más allá de lo hasta ahora expuesto ya que en sus capítulos se desentraña el devenir cubano durante más de un siglo de dominación española cubriéndose las más variadas facetas. Las elites como queda dicho, la Hacienda, la posición de Cuba en la política exterior española, las estructuras administrativas de la Isla, la política sanitaria y educativa de España en la colonia, la ciencia en Cuba, la posición de los capitanes generales y como colofón los estertores finales de la presencia española con el debate sobre un tardío estatuto de autonomía que no evitó el trauma de la guerra y la herida de la ruptura entre Cuba y la metrópoli aparecen en la obra de forma amena y precisa. Resulta evidente que a día de hoy para España Cuba no es un país sino un sentimiento o una emoción que todavía perdura en el alma española. La obra es novedosa por su alcance general ya que la bibliografía es abundante por lo que toca al análisis de la génesis y consecuencias de la guerra de 1898 pero escasa en un estudio riguroso de todas las facetas de la vida colonial cubana.
