Childhood Education International Primary Committee,1939 [A Compendium of Neuropsychological Tests](#) Esther Strauss,Elisabeth M. S. Sherman,Otfried Spreen,2006-04-06 For the practicing neuropsychologist or researcher keeping up with the sheer number of newly published or updated tests is a challenge as is evaluating the utility and psychometric properties of neuropsychological tests in a clinical context The goal of the third edition of [A Compendium of Neuropsychological Tests](#) a well established neuropsychology reference text is twofold First the Compendium is intended to serve as a guidebook that provides a comprehensive overview of the essential aspects of neuropsychological assessment practice Second it is intended as a comprehensive sourcebook of critical reviews of major neuropsychological assessment tools for the use by practicing clinicians and researchers Written in a comprehensive easy to read reference format and based on exhaustive review of research literature in neuropsychology neurology psychology and related disciplines the book covers topics such as basic aspects of neuropsychological assessment as well as the theoretical background norms and the utility reliability and validity of neuropsychological tests For this third edition all chapters have been extensively revised and updated The text has been considerably expanded to provide a comprehensive yet practical overview of the state of the field Two new chapters have been added Psychometrics in Neuropsychological Assessment and Norms in Psychological Assessment The first two chapters present basic psychometric concepts and principles Chapters three and four consider

practical aspects of the history taking interview and the assessment process itself Chapter five provides guidelines on report writing and chapters six through sixteen consist of detailed critical reviews of neuropsychological tests and address the topics of intelligence achievement executive function attention memory language visual perception somatosensory olfactory function mood personality and response bias A unique feature is the inclusion of tables that summarize salient features of tests within each domain so that readers can easily compare measures Additional tables within each test review summarize important features of each test highlight aspects of each normative dataset and provide an overview of psychometric properties Of interest to neuropsychologists neurologists psychiatrists and educational and clinical psychologists working with adults as well as pediatric populations this volume will aid practitioners in selecting appropriate testing measures for their patients and will provide them with the knowledge needed to make empirically supported interpretations of test results

Secondary Education Journal ,1982 *Journal of Developmental Education* ,1997 **Telling God's Stories with Power** Paul F. Koehler,2010-06-01 Biblical Storytelling in Oral Cultures This is a complete and practical introduction to storying especially for people who want to learn about using biblical storytelling in cross cultural contexts and who want to train others to become storytellers It includes many fascinating accounts of the responses of tribal people to the first proclamation of the gospel through storytelling The result of years of research and field testing Telling God s Stories with Power is a product of the author s own journey as he confronted the challenges of teaching the Bible in parts of the world where people are unaccustomed to a Western style of learning Full of innovative and groundbreaking insights this study is packed with ideas explanations and constructive suggestions stated in clear and simple language Throughout the book there are extensive examples from the storytellers own experiences Tracing the movement of the biblical stories across multiple generations of tellers and listeners storytelling is found to be superior for knowledge transfer and for bypassing resistance to the gospel in oral contexts thus presenting clear evidence of the effectiveness of biblical narrative among oral learners
