Although WLA covers such topics at a good principle level, it is my goal to break them down into further applicable details to help such lottery jurisdictions that have poor technological infrastructure and regulations to better manage their instant lottery business. This document is intended to present examples and to further assist in developing advanced security and risk management plans in order to effectively meet WLA standards. This document will offer basic and proven processes to support those instant lottery jurisdictions that have not yet matured and are sustaining technical operations via their own legacy solutions. **HANDBOOK OF MATERIALS MANAGEMENT, SECOND EDITION** GOPALAKRISHNAN, P., HALEEM, ABID, 2015-01-13.
