Domestic Workers in Saudi Arabia and the Emirates Antoinette Vlieger, 2012-03-29 Page 1 opens with a jarring turn Filipina domestic worker employed in Riyadh Really they are good to me If I say I need rest they give me rest And if they were not so good to you if you would have some problem with your employer where would you go Madam I cannot go anywhere I am not allowed to go outside I cannot go to the embassy I will just cry in my room and pray This book explores the duality and conflicts faced by the desperate employee far from home having signed a contract written in Arabic her passport held by her employer and with limited power as a woman to be a witness in court against a man DOMESTIC WORKERS IN SAUDI ARABIA AND THE EMIRATES is a new socio legal study of pressing questions of human rights contractual freedom transnational markets and social policy Which factors influence the emergence and character of conflicts in the Kingdom of Saudi Arabia and the United Arab Emirates between domestic workers and their employers the social and legal norms both parties refer to and the related imbalance of power In what way and to what extent do domestic workers and their employers refer to Islamic customary contractual and formal legal norms Do conflicts concern disagreement over norms or disputes regarding behavior contrary to the norms upon which both parties agree Which factors

influence the norms that both parties refer to in conflicts Which party is able to enforce its own norms or to act contrary to norms on which both parties agree and which factors influences the balance of power Using a grounded theory methodology involving extensive field research and revealing interviews of workers employers employment agencies human rights organizations and governmental officials Vlieger exposes the multifacets and dilemmas of the people and institutions involved Finally she proposes pragmatic solutions to prevent the most excessive vulnerabilities and imbalances This is an upsetting and candid introduction to another world supported with scholarly research but accessible to the general reader as well as academics and human rights activists Part of the Human Rights and Culture Series from Quid Pro Books **Monthly**

Catalog of United States Government Publications ,2002 Training and Simulation Shem Malmquist,Dennis A. Vincenzi,Katherine Lemos,Shawn Pruchnicki,2025-09-16 Developing training and simulation is a complex business From understanding human performance design usability and the limitations of training types to considerations with virtual reality VR producing realistic scenarios and even helping accident investigations leaves the practitioner with almost an overwhelming challenge However they know that their goal is to cut out developing methods that can train and test the sharp end professional to be ready for any eventuality whether in the air a chemical plant or the operating room Through chapters written by leading experts this book aims to address the key questions and concerns when developing training and simulation in high risk industries This book identifies unexplored challenges and weaknesses in the aviation domain including ground based training and flight simulation compared to the real world of in flight complex aircraft operations aviation accidents and incidents airspace and air traffic control aeronautical communications air navigation aircraft automation and pilot certification and testing These concerns are not just relevant to aviation however This book pushes beyond aviation to include other fields including petrochemical and medicine that while on the surface are different include some of the same human and organizational challenges It integrates machine challenges with human factors science and includes a view of the corporate influences on training Safety is a consideration in all the challenges and current limitations in training and simulation and the book is written with the intention of improving both training and safety as industries deal with more and more complex advanced technology Underpinned by case studies and real life examples this book will give the reader a thorough overview of the limitations of current training methods but with a view to improving and developing better methods for future training scenarios Opportunities and solutions are presented for current or future research and the application and incorporation of these in day day operations Training and Simulation Processes Challenges and Solutions will appeal to practitioners of human factors training pilots and ground operators engineers involved in systems design safety specialists test evaluators and accident investigators across multiple domains *Emotional Resilience for Wellbeing and Employability: The Role of Learning and Training, volume II* Svajone Bekesiene,Rasa Smaliukiene ,Sarka Hoskova-Mayerova,2025-10-13 This Research Topic is the second volume of the very successful and impactful collection called Emotional Resilience for

Wellbeing and Employability The Role of Learning and Training please see the first volume here Today emotional resilience is one of the most important competencies in the process of young people s transition to adult life and developing a meaningful career Emotional resilience is also important for maintaining well being after stressful events throughout life During the COVID 19 pandemic many studies have shown the negative impact of perceived stress on people s well being careers and even their employability At the same time emotional resilience is important in everyday life as it protects against mental disturbances Emotional resilience is a competence that can be developed under formal educational programs or trained using a range of training methods and tools Emotional resilience is a trait people have from birth and develop throughout their lives It is a trainable capability that can be used to display positive adaptation to stressful situations and cope with life s challenges Research on emotions in recent decades has identified key essential components that could be included in a curriculum designed to develop emotion based knowledge and skills Although the topic of emotions is widely explored research on learning and training for emotional resilience still has several gaps especially in the field of emotional resilience for well being and employability Therefore this Topic aims to provide evidence based contributions to amplify the diversity of learning and training methods and practices for building emotional resilience This Research Topic is open to descriptive and experimental research and methodological proposals emerging in educational and training contexts that aim to take emotional resilience into account We especially welcome contributions that help understand how emotional resilience training contributes to long term mental health conditions and well being as well as professional development and employability in the labor market The goal is to collect and present to the reader research that would help profile diagnose and evaluate the impact of educational emotional interventions on students employees the unemployed and other groups
