**Filling the Ark** Leslie Irvine, 2021-06-30 When disasters strike people are not the only victims Hurricane Katrina raised public attention about how disasters affect dogs cats and other animals considered members of the human family In this short but powerful book noted sociologist Leslie Irvine goes beyond Katrina to examine how disasters like oil spills fires and other calamities affect various animal populations on factory farms in research facilities and in the wild Filling the Ark argues that humans cause most of the risks faced by animals and urges for better decisions about the treatment of animals in disasters Furthermore it makes a broad appeal for the ethical necessity of better planning to keep animals out of jeopardy Irvine not only offers policy recommendations and practical advice for evacuating animals she also makes a strong case for rethinking our use of animals suggesting ways to create more secure conditions Management of Animal Care and Use Programs in Research, Education, and Testing

Robert H. Weichbrod, Gail A. (Heidbrink) Thompson, John N. Norton, 2017-09-07 AAP Prose Award Finalist 2018 19 Management of Animal Care and Use Programs in Research Education and Testing Second Edition is the extensively expanded revision of the popular Management of Laboratory Animal Care and Use Programs book published earlier this century Following in the footsteps of the first edition this revision serves as a first line management resource providing for strong advocacy for advancing quality animal welfare and science worldwide and continues as a valuable seminal reference for those engaged in all types of programs involving animal care and use The new edition has more than doubled the number of chapters in the original volume to present a more comprehensive overview of the current breadth and depth of the field with applicability to an international audience Readers are provided with the latest information and resource and reference material from authors who are noted experts in their field The book Emphasizes the importance of developing a collaborative culture of care within an animal care and use program and provides information about how behavioral management through animal training can play an integral role in a veterinary health program Provides a new section on Environment and Housing containing chapters that focus on management considerations of housing and enrichment delineated by species Expands coverage of regulatory oversight and compliance assessment and assurance issues and processes including a greater discussion of globalization and harmonizing cultural and regulatory issues Includes more in depth treatment throughout the book of critical topics in program management physical plant animal health and husbandry Biomedical research using animals requires administrators and managers who are knowledgeable and highly skilled They must adapt to the complexity of rapidly changing technologies balance research goals with a thorough understanding of regulatory requirements and guidelines and know how to work with a multi generational multi cultural workforce This book is the ideal resource for these professionals It also serves as an indispensable resource text for certification exams and credentialing boards for a multitude of professional societies Co publishers on the second edition are ACLAM American College of Laboratory Animal Medicine ECLAM European College of Laboratory Animal Medicine IACLAM

International Colleges of Laboratory Animal Medicine JCLAM Japanese College of Laboratory Animal Medicine KCLAM Korean College of Laboratory Animal Medicine CALAS Canadian Association of Laboratory Animal Medicine LAMA Laboratory Animal Management Association and IAT Institute of Animal Technology      **Animal Welfare** Christina Fisanick, 2011-03-16 In Hinduism cows are sacred respected and treated as a motherly giving animal The thought of eating them or using their skin for accessories is sickening So many cultures across the globe have their own understandings of animal welfare This fantastic collection of essays shares international beliefs about animals and animal welfare Essays includes speeches government documents and articles from international magazines and news sources Readers will explore global perspectives about cultural and religious views on animal rights They will evaluate animal welfare in relation to biomedical research Essays examine the world food industry The last chapter covers animal ownership and welfare in various cultures      **Animals and War** Ryan Hediger, 2012-11-01 Animals and War is the first collection of essays to study its topic Using sociology history anthropology and cultural studies it analyzes a wide range of phenomena and exposes the often paradoxical contours of human animal relationships      **Stocks or Stakeholders: The Benefits of Considering Animal Interests** Michael D. Briscoe, 2025-07-10 Animals are typically treated as property in modern societies Stocks or Stakeholders extends stakeholder theories to animals arguing that full consideration of their interests will benefit humans For example one analysis in the book shows that more protected land is associated with fewer animal vehicle collisions events that currently cost millions of dollars each year and injure both humans and animals Regardless of how readers personally feel about animals Stocks or Stakeholders makes a compelling case for seriously considering their interests

**World War Zoos** John M. Kinder, 2025-04-22 A new and heartbreaking history of World War II as told through the shocking experiences of zoos across the globe As Europe lurched into war in 1939 zookeepers started killing their animals On September 1 as German forces invaded Poland Warsaw began with its reptiles Two days later workers at the London Zoo launched a similar spree dispatching six alligators seven iguanas sixteen southern anacondas six Indian fruit bats a fishing cat a binturong a Siberian tiger five magpies an Alexandrine parakeet two bullfrogs three lion cubs a cheetah four wolves and a manatee over the next few months Zoos worldwide did the same The reasons were many but the pattern was clear The war that was about to kill so many people started by killing so many animals Why And how did zoos nevertheless not just survive the war but play a key role in how people did too A harrowing yet surprisingly uplifting chronicle Kinder's World War Zoos traces how zoos survived the deadliest decades of global history from the Great Depression through the terrors of World War II to the dawn of the Cold War More than anything before or since World War II represented an existential threat to the world's zoological institutions Some zoos were bombed others bore the indignities of foreign occupation Even zoos that were spared had to wrestle with questions rarely asked in public What should they do when supplies ran low Which animals should be killed to protect the lives of others And how could zoos justify keeping dangerous animals that might escape and run wild

during an aerial attack Zoos in wartime reveal the shared vulnerabilities of humans and animals during periods of social unrest and environmental peril World War II era zoos offered people ways to think about and grapple with imprisonment powerlessness and degradation Viewed today the story of zoos during World War II can be read as an allegory of twenty first century crises as the effects of climate change threaten all life across the planet A one of a kind history World War Zoos is the story of how the world's zoos survived the deadliest conflict of the twentieth century and what was lost along the way

**Qualitative Disaster Research** Brenda D. Phillips, 2014 Research that occurs in the context of emergencies and disasters requires attention to challenging contexts and circumstances Qualitative Disaster Research walks readers through the ways in which those contexts can be managed to produce careful rigorous and scholarly work Students and faculty will find the book both approachable and inspiring and perfect for use in training the next generation of disaster researchers

**Pet Politics** Susan Hunter, Richard A. Brisbin, 2016-02-15 Although scholars in the disciplines of law psychology philosophy and sociology have published a considerable number of prescriptive normative and theoretical studies of animals in society Pet Politics presents the first study of the development of companion animal or pet law and policy in Canada and the United States by political scientists The authors examine how people and governments classify three species of pets or companion animals cats dogs and horses for various degrees of legal protection They then detail how interest groups shape the agenda for companion animal legislation and regulation and the legislative and administrative formulation of anticruelty kennel licensing horse slaughter feral and roaming cat and breed ban policies Finally they examine the enforcement of these laws and policies by agencies and the courts Using an eclectic mix of original empirical data original case studies and interviews and relying on general theories and research about the policy process and the sociopolitical function of legality the authors illustrate that pet policy is a unique field of political struggle a conflict that originates from differing perspectives about whether pets are property or autonomous beings and clashing norms about the care of animals The result of the political struggle the authors argue is difficulty in the enactment of policies and especially in the implementation and enforcement of laws that might improve the welfare of companion animals **Animal Sheltering**, 2009 **Mourning**

**Animals** Margo DeMello, 2016-08-01 We live more intimately with nonhuman animals than ever before in history The change in the way we cohabitate with animals can be seen in the way we treat them when they die There is an almost infinite variety of ways to help us cope with the loss of our nonhuman friends from burial cremation and taxidermy to wearing or displaying the remains ashes fur or other parts of our deceased animals in jewelry tattoos or other artwork to counselors who specialize in helping people mourn pets to classes for veterinarians to tips to help the surviving animals who are grieving their animal friends to pet psychics and memorial websites But the reality is that these practices and related beliefs about animal souls or animal afterlife generally only extend with very few exceptions to certain kinds of animals pets Most animals in most cultures are not mourned and the question of an animal afterlife is not contemplated at all Mourning Animals investigates how we

mourn animal deaths which animals are grievable and what the implications are for all animals

**Animal Ethics and Philosophy** Elisa Aaltola, John Hadley, 2014-11-24 Debate in animal ethics needs reenergizing To date philosophers have focused on a relatively limited number of specific themes whilst leaving metaphilosophical issues that require urgent attention largely unexamined This timely collection of essays brings together new theory and critical perspectives on key topics in animal ethics foregrounding questions relating to moral status moral epistemology and moral psychology Is an individualistic approach based upon capacities the best way to ground the moral status of non human animals or should philosophers pursue relational perspectives What does it mean to know animals and speak for them What is the role of emotions such as disgust empathy and love in animal ethics and how does emotion inform the rationalism inherent in analytic animal ethics theory The collection aims to broaden the scope of animal ethics rendering it more inclusive of important contemporary philosophical themes and pushing the discipline in new directions

**The Oxford Handbook of Animal Studies** Linda Kalof, 2017 The Oxford Handbook of Animal Studies tackles the infamous animal question how can humans rethink and reconfigure their relationships with other animals Over the course of five sections and thirty chapters the contributors investigate issues and concepts central to understanding our current relationship with other animals and the potential for coexistence in an ecological community of living beings

**Heritage - Between and Beyond Nature, Culture and Agency** Joanna Godlewicz-Adamiec, Monika Stobiecka, 2025-08-11 In an era of climate emergency and political upheaval heritage demands radical rethinking This volume confronts the Enlightenment rooted dualisms that fragment heritage into opposing categories By embracing posthumanist concepts like naturecultures and agency this volume explores entangled human and nonhuman pasts from the contested Bia owie a Forest to ancient sensory environments Through case studies spanning archaeology museum studies and literary analysis contributors unravel heritage as a dynamic more than human meshwork This collection is an urgent call to transcend reductive binaries fostering an ethical responsive and sustainable heritage practice attuned to our shared precarious futures

**Animals and Society** Margo DeMello, 2012 This textbook provides a full overview of human animal studies It focuses on the conceptual construction of animals in American culture and the way in which it reinforces and perpetuates hierarchical human relationships rooted in racism sexism and class privilege

**Handbook of Teaching and Learning in Sociology** Sergio A. Cabrera, Stephen Sweet, 2023-01-20 Showcasing advanced research from over 30 expert sociologists this dynamic Handbook explores a wide range of cutting edge developments in scholarship on teaching and learning in sociology It presents instructors with a comprehensive companion on how to achieve excellence in teaching both in individual courses and across the undergraduate sociology curriculum

Brekhus, Thomas DeGloma, William Ryan Force, 2023-12-22 The Oxford Handbook of Symbolic Interactionism features a diverse array of cutting edge scholarship in symbolic interactionism SI The scholars featured in this volume present new and evolving outlooks on foundational SI themes

including the self and identity the interactive construction of meaning classical pragmatism interactionist research methods performance culture and subcultures cognition emotion organizations and institutions and social constructionism

**Zoopolis** Sue Donaldson, Will Kymlicka, 2011-11-25 Zoopolis offers a new agenda for the theory and practice of animal rights Most animal rights theory focuses on the intrinsic capacities or interests of animals and the moral status and moral rights that these intrinsic characteristics give rise to Zoopolis shifts the debate from the realm of moral theory and applied ethics to the realm of political theory focusing on the relational obligations that arise from the varied ways that animals relate to human societies and institutions Building on recent developments in the political theory of group differentiated citizenship Zoopolis introduces us to the genuine political animal It argues that different types of animals stand in different relationships to human political communities Domesticated animals should be seen as full members of human animal mixed communities participating in the cooperative project of shared citizenship Wilderness animals by contrast form their own sovereign communities entitled to protection against colonization invasion domination and other threats to self determination Liminal animals who are wild but live in the midst of human settlement such as crows or raccoons should be seen as denizens resident of our societies but not fully included in rights and responsibilities of citizenship To all of these animals we owe respect for their basic inviolable rights But we inevitably and appropriately have very different relations with them with different types of obligations Humans and animals are inextricably bound in a complex web of relationships and Zoopolis offers an original and profoundly affirmative vision of how to ground this complex web of relations on principles of justice and compassion

**Regarding Animals** Arnold Arluke, Clinton Sanders, Leslie Irvine, 2022-07 This book offers a critical update to the seminal text Regarding Animals It combines sociological analysis with ethnographic description to provide insight into the history and practice of how we as human beings construct animals and by extrapolation how we construct ourselves and others in relation to them

**The Cambridge Handbook of Sociology: Volume 2** Kathleen Odell Korgen, 2017-08-11 Whether a student an instructor a researcher or just someone interested in understanding the roots of sociology and our social world The Cambridge Handbook of Sociology Volume 2 is for you This second volume of the Handbook covers specialties within sociology and interdisciplinary studies that relate to sociology It includes perspectives on race class feminist theories special topics e g the sociology of nonhuman animals quality of life social indicators research the sociology of risk the sociology of disaster the sociology of mental health sociobiology the sociology of science and technology the sociology of violence environmental justice and the sociology of food the sociology of the self the sociology of the life course culture and behavior sociology s impact on society and related fields e g criminology criminal justice studies social work social psychology sociology of translation and translation studies and women and gender studies Each essay includes a discussion of how the respective subfield contributes to the overall discipline and to society Written by some of the most respected scholars teachers and public sociologists in the world the essays are highly readable and authoritative

**Introduction to Emergency Management** Brenda D. Phillips, David M. Neal, Gary R. Webb, 2016-12-08 Emergency management university programs have experienced dramatic and exponential growth over the last twelve years. This new fully updated edition introduces majors and minors to the field and provides content accessible to those students taking introductory emergency management courses. The book's student-centered focus looks at the regional, state, and local level response as well as some of the often misunderstood or overlooked social aspects of disasters. Real world cases are described throughout, including considerations of international emergency management and disasters alongside features from former students now working as professionals in the field of emergency management.
