Handbook of Research on Digital Transformation Management and Tools Pettinger, Richard,Gupta, Brij B.,Roja, Alexandru,Cozmiuc, Diana,2022-06-30 Advances in digital technologies continue to impact all areas of life including the business sector Digital transformation is ascertained to usher in the digitalized economy and involves new concepts and management tools that must be considered in the context of management science and practice For business leaders to ensure their companies remain competitive and relevant it is essential for them to utilize these innovative technologies and strategies The Handbook of Research on Digital Transformation Management and Tools highlights new digital concepts within management such as digitalization and digital disruption and addresses the paradigm shift in management science incurred by the digital transformation towards the digitalized economy Covering a range of important topics such as cultural economy online consumer behavior sustainability and social media this major reference work is crucial for managers business owners researchers scholars academicians practitioners instructors and students

Strategic Change and Transformation Swarup Kumar Dutta,2018-08-14 Strategic change and transformation are words used very commonly in business parlance but rarely defined Besides change and transformations are often used interchangeably Thus the correct perspective of viewing change and transformations is missing from management literature How is change different from transformation Do all changes lead to renewal What are the characteristics of strategic changes This re addresses some of our current assumptions and understanding of change and transformation when viewed through both academic and business

lenses It is a balanced and well rounded perspective on how strategic change and transformation can be brought about successfully in organizations specifically with the perspective from an emerging economy like India **Environmental, Social, Governance and Digital Transformation in Organizations** Andreia de bem Machado, Maria Jose Sousa, Andrea Brambilla, Antonio Pesqueira, Alvaro Rocha, 2025-06-07 This book investigates the dynamic interaction between environmental social and governance ESG programs and digital transformation addressing important themes such as corporate governance ethical leadership stakeholder engagement and sustainability in a digital age Exploring a range of sectors it examines the impact of AI on governance child protection and smart cities along with the integration of ESG strategies in healthcare waste management and Industry 4 0 Through case studies and analysis he highlights challenges such as technological stress while offering insights into sustainable business ecosystems strategic leadership and transparency The 22 chapter book bridges the gap between academia and the sector presenting innovative frameworks and practical solutions to promote resilient ethical and sustainable digital transformation *The Transformation of University Institutional and Organizational Boundaries*

Emilia Primeri, Emanuela Reale, 2015-11-02 An emerging issue in higher education studies is that of boundaries crossing This is the main topic of the book The transformation of University institutional and organizational boundaries Several signals of shifting boundaries can be envisaged in higher education and research institutions which could be glimpsed through organizations the institutions and changes to the academic profession That of boundaries crossing in Higher Education is a complex and heterogeneous issue which characterizes scientific knowledge today and represents a key issue when looking at University transformations across contexts and policies instruments and practices The analysis of boundaries supplies interpretative frameworks for the interactions between the development of professions and disciplines as well as the relationships of the science with various parts of society such as state professionals and the market Fuelling further the discussion on HEIs transformations allows capturing changes in the function objectives and scope of higher education and research institutions the move beyond sectoral and disciplinary boundaries and the increasingly blurred boundaries of academic professions and of scientific work Public policies and HE reforms can push or impede the mentioned transformations but they can also derive from individual likelihood of moving in blurring spaces or from the transformations of the epistemic communities and the emergence of new fields and sectors Hence changes are there open to our observations
