Annual Report South Africa. Department of Basic Education, 2016 Twenty Years of Education Transformation in Gauteng 1994 to 2014 Felix Maringe, Martin Prew, 2015-05-05 Twenty Years of Education Transformation in Gauteng 1994 to 2014 An Independent Review presents a collection of 15 important essays on different aspects of education in Gauteng since the advent of democracy in 1994 These essays talk to what a provincial education department does and how and why it does these things whether it be about policy resourcing or implementing projects Each essay is written by one or more specialist in the relevant focus area The book is written to be accessible to the general reader as well as being informative and an essential resource for the specialist reader It sheds light on aspects of how a provincial department operates and why and with what consequences certain decisions have been made in education over the last 20 turbulent years both nationally and provincially There has been no attempt to fit the books chapters into a particular ideological or educational paradigm and as a result the reader will find differing views on various aspects of the Gauteng Department of Educations present and past We leave the reader to decide to what extent the GDE has fulfilled its educational mandate over the last 20 years *The Education Triple Cocktail* Brahm Fleisch, 2018-08-15 The Education Triple Cocktail brings together rigorous quantitative and qualitative research on a new approach to improving foundational teaching and learning for schoolchildren living in working class poor and remote rural communities in resource constrained systems like South Africa At the core of this book is the theory and evidence for a powerful new interlocking and mutually reinforcing change model Inspired by the AIDS treatment story the three pronged approach of structured daily lesson plans appropriate and high quality educational materials and one on one instructional coaching to help teachers transform their instructional practices in early grade classrooms shows that it will improve learning outcomes For education systems defined by low levels of early grade learning and profoundly unequal outcomes The Education Triple Cocktail offers a theoretically informed evidence based way forward This book will be of immense use to teachers students of Education policymakers and parents Effects of Government Mandates and Policies on Public Education in Africa, the Caribbean, and the Middle East Cynthia S Sunal, Oluseyi Matthew Odebiyi, Kagendo Mutua, 2022-06-01 As the demand for education at all levels has increased so have the models of meeting these increased demands for education As in many other parts of the world public education has expanded to serve large populations across the regions of Africa the Caribbean and the Middle East Many nations in these regions have instituted mandates policies and frameworks intended to simultaneously increase access to public education opportunities as well as improve the quality of education provided and to address a wide populace Because the increase in educational demand has occurred at all levels these efforts often address various levels of education from early childhood through primary schooling junior secondary and secondary schooling and into tertiary education Efforts also have been made to increase participation in education by marginalized and or special populations The range of efforts is large with some focusing on involving migrants immigrants

refugees in primary education while others aim at opening up choices at the university level Recently nations in the region have recognized the possibilities of digital learning online learning as cell phones and other widely used portable wireless devices have made it possible to sell the idea that one can learn from anywhere at any time This widespread access to technology has made it possible for governments as well as private entities to expand learning opportunities even to populations previously unreached or to address difficult to reach sectors of the population At the same time the population itself has not only increased in numbers but in diversity Maintaining quality through digital and other means of quick expansion of educational opportunities continues to be challenging if not problematic Effects of Government Mandates and Policies on Public Education in Africa the Caribbean and the Middle East is Book IX of the series Research on Education in Africa the Caribbean and the Middle East Chapters document describe and or raise critical issues and or questions resulting from government policies mandates and frameworks intended to make available public education to an ever growing populace while at the same time being mindful of improving quality of education being availed to an increasingly diverse populace
