Underground to Canada (Novel Study) Gr. 4-7 Rob Kennedy, 1997-01-01 Underground to Canada is the historical story of freedom and survival told through the eyes of two young girls. The story surrounds Julilly and Liza who with their friends Lester and Adam escape from a life of slavery on a cotton plantation in the Deep South. The story follows the two young girls as they travel through the United States along the underground railway to reach their final destination Canada. During their journey the two girls get separated from their friends and must make the long treacherous journey alone. They are encountered with many obstacles but are helped throughout their journey by those who make up the underground railway. This Novel Study provides a teacher and student section with a variety of activities, discussion questions, and an answer key to create a well-rounded lesson plan.

**The Oxford Handbook of American Literary Naturalism** Keith Newlin, 2011-03-01 After its heyday in the late nineteenth and early twentieth century, naturalism, a genre that typically depicts human beings as the product of biological and environmental forces over which they have little control, was supplanted by modernism, a genre in which writers experimented with innovations in form and content. In the last decade, the movement is again attracting spirited scholarly debate. The Oxford Handbook of American Literary Naturalism takes stock of the best new research in the field through collecting twenty-eight original essays drawing upon recent scholarship in literary and cultural studies. The contributors offer an authoritative and in-depth reassessment of writers from Stephen Crane, Frank Norris, Theodore Dreiser, and Jack London to Kate Chopin, Edith Wharton, Ernest Hemingway, Richard Wright, John Steinbeck, Joyce Carol Oates, and Cormac McCarthy. One set of essays focuses on the genre itself, exploring the historical contexts that gave birth to it, the problem of definition, its interconnections with other genres, the scientific and philosophical ideas that motivate naturalist authors, and the continuing presence of naturalism in twenty-first-century fiction. Others examine the tensions within the genre, the role of women, and African American writers' depictions of sexuality, the problem of race, and the critique of commodity culture and class. A final set of essays looks beyond the works to consider the role of the marketplace in the development of naturalism, the popular and critical response to the works, and the influence of naturalism in the other arts.

**Theoretical Issues in Literary History** David Perkins, 1991 Literary history, the dominant form of literary scholarship throughout the nineteenth century, is currently recapturing the imaginations of a new generation of scholars eager to focus on the context of literature after a half-century or more of close readings of isolated texts. This book represents current thinking on some of the theoretical issues and dilemmas in the conception and writing of literary history expressed by a group of scholars from North America, Europe, and Australia. They consider afresh a broad

range of topics the role of literary history in new societies the problem of finding a starting point for literary history the problem of literary classification problems of ideology of institutional mediation periodization and the attack on literary history     **Resources in Education** ,2000-10     *Action Research* Craig A.
