Geography 2013 Papermemo November:

Decolonising Geography? Disciplinary Histories and the End of the British Empire in Africa, 1948-1998 Ruth Craggs, Hannah Neate, 2023-10-02 **DECOLONISING GEOGRAPHY** This book presents an extraordinarily sensitive account of geography's histories in five African countries subjected to British colonial rule. Craggs and Neate draw together political and imaginative processes of decolonisation through an innovative biographical approach that humanizes and enlivens the story of our academic discipline. It will be an invaluable resource for those seeking a deeper understanding of decolonisation, its recent trajectories and far-reaching implications on the African continent. Shari Daya Affiliate Associate Professor in Environmental and Geographical Science, University of Cape Town. By placing the experiences, ideas and practices of African geographers in the center of their analyses, Craggs and Neate provide an unprecedented account of historical and contemporary decolonizing struggles within Geography and the academy. This book should be required reading for all those looking to decolonize the discipline and dislodge it from its Global North histories, institutions and ideologies. Mona Domosh, Professor of Geography, The Joan P and Edward J Foley Jr 1933 Professor, Dartmouth College. This meticulous work explores how colonialism, decolonization and postcolonialism shaped African geography and geographers. It sheds light on efforts to Africanize the discipline, a process which I was both witness to and a participant in. Stanley Okafor, Professor of Geography, Retired, University of Ibadan. How did a generation of academic geographers engage with constitutional decolonisation during the end of the British empire in Africa? In *Decolonising Geography: Disciplinary Histories and the End of the British Empire in Africa, 1948-1998*, Ruth Craggs and Hannah Neate explore how the teaching, research, administration and activism of geographers in Africa shaped the discipline and the post-colonial geopolitics of the continent. The authors follow the professional lives of individual geographers to provide fresh insights into decolonisation in the former British Empire in Africa, drawing from extensive archival research and more than 40 oral history interviews with geographers in Ghana, Nigeria, South Africa, Tanzania and the UK. *Decolonising Geography* is a must-read for any reader in the UK and Africa with an interest in the relationships between geography and decolonisation. *The Problem of Social Inequality* Scott G. McNall, 2015-12-07. Within and among nations, rising levels of social inequality threaten our collective future. Currently, upwards of 80% of people's life chances are determined by factors over which they have absolutely no control. Social inequality threatens the democratic project because it destroys the trust on which governments depend and it gives rise to corrupt political and economic institutions. How can we get out of the traps we have created for ourselves? We need to reboot capitalism. Drawing on diverse examples from a range of countries, McNall explains the social, economic and ecological traps we have set for ourselves and develops a set of rules of resilience that are necessary conditions for the creation and maintenance of democratic societies and a set of rules essential for creating a sustainable future. **The War Lawyers** Craig Jones, 2020-11-26. Over the last 20 years, the world's most advanced militaries have invited a small number of military

legal professionals into the heart of their targeting operations spaces which had previously been exclusively for generals and commanders These professionals trained and hired to give legal advice on an array of military operations have become known as war lawyers The War Lawyers examines the laws of war as applied by military lawyers to aerial targeting operations carried out by the US military in Iraq and Afghanistan and the Israel military in Gaza Drawing on interviews with military lawyers and others this book explains why some lawyers became integrated in the chain of command whereby military targets are identified and attacked whether by manned aircraft drones and or ground forces and with what results This book shows just how important law and military lawyers have become in the conduct of contemporary warfare and how it is understood Jones argues that circulations of law and policy between the US and Israel have bolstered targeting practices considered legally questionable contending that the involvement of war lawyers in targeting operations enables legitimises and sometimes even extends military violence

Educational Reconstruction Gary McCulloch,2013-09-05 This book presents a clear overview of the debates that surrounded the making of the 1944 Act which affected every aspect of education in this country It gives a detailed account of the tripartite divisions into three types of child that were sanctioned in the reforms of the 1940s At the same time it also emphasises the idea of education as a civic project which underlay the reforms and which was such an important part of their lasting authority The education policies of the past decade and the current attempts to shape a new education settlement need to be interpreted in a long term historical framework and in particular in relation to the aims and problems of the last great cycle of reform in the 1940s This book makes an important contribution to the development of such a framework and the social history of education policy in this country

Deepening Neoliberalism, Austerity, and Crisis Julien Mercille,Enda Murphy,2015-07-07 From bank bailouts to austerity Europe s and Ireland s response to the economic crisis has been engineered specifically to shift the burden of paying for the crisis onto ordinary citizens while investors financiers bankers and the privileged are protected The authors expose the class based nature of Ireland s crisis resolution

Race and Place Deirdre Mayer Dougherty,2025-08-12 Race and Place considers the everyday experiences of community members throughout the process of school desegregation and how race place and truth came to matter in this process in Prince George s County Maryland from 1945 through 1973 The book is organized around several successive policies that emerged in this time school equalization school choice neighborhood schools school construction school closure busing for racial integration and school discipline Dougherty shows how these policies contained and reinforced assumptions about place and created new racial truths about people and schooling

Bailey, Katja Levy, Espen Moe, 2024-08-24 As technological development and diffusion have greatly increased the resources states can recover from maritime space the stakes of these conflicts have grown Nowhere is this clearer than in East Asia This book examines how technological change and diffusion impact East Asian maritime conflicts and approaches for conflict management and resolution

Sticky Power Daniel Haberly, Dariusz Wójcik, 2022-05-02 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations Although modern civilization revolves around money the nature of money is paradoxical It is nothing more than a representation of and medium for decentralized networks of social trust but its production is controlled by highly centralized networks of firms places and governments and there is never enough of it to go around Moreover given that the creation of money as credit is based on expectations money is at its heart an instrument for human agency to change the future However the financial systems that produce money are deeply rooted in the past and perpetuate themselves through history Sticky Power seeks to deepen our understanding of the paradox of money by introducing a novel conceptual lens Global Financial Networks to cast new light on the geography history politics and sociology of finance from the Middle Ages to the global financial crisis and beyond It shows that the power of finance is inherently sticky apparently new innovations such as offshore finance actually date back centuries and global financial networks more broadly have adapted to the rise and fall of empires and the development of new technologies while changing surprisingly little in their basic character or at most changing very slowly Haberly and Wójcik argue that a recognition of the mechanics of this durability calls for a new approach to reforming finance one less reactively focused on regulation and more proactively focused on building new institutional systems with a long term sticky power of their own

[A Global Idea](#) Mayssoun Sukarieh, 2023-08-15 A Global Idea outlines how youth as shown by the Arab Spring uprisings and subsequent state responses became a prominent social and political category during the first two decades of the twenty first century in the Middle East Drawing on ethnographic fieldwork interview data and textual analysis Mayssoun Sukarieh explains that the spread of youth as an important category is linked to the operation of a global youth development complex a diverse transnational network of state private sector civil society and international development aid organizations that worked through key urban areas such as Washington DC Amman and Dubai In its analysis of the arrival extension and embedding of the youth development complex in the Middle East during this period A Global Idea addresses a broader question that is of global and not just regional concern How are certain ideas that are central to the working and reproduction of global capitalism able to travel the world so that they are found virtually everywhere

Confronting Crisis and Precariousness Stefan Schmalz, Brandon Sommer, 2019-07-24 The 2008 global financial crisis and the subsequent Eurozone crisis triggered dramatic changes in European labour relations Unemployment and precariousness increased considerably This was further

exacerbated by austerity measures leading to declining minimum wages and layoffs in the public sector These structural changes varied considerably by country but collectively pose challenges to organized labour as they confront neoliberal restructuring Concurrently recent social struggles continue to develop with unemployed and precarious workers playing a major role as protest actors Focusing on the triangular relationship of precariousness trade unions and social movements this book draws on a range of exciting cases both comparative and country case studies in order to understand how the shadow of the crisis still haunts organized labour in Europe The chapters in this collection each offer a unique perspective on how the results of the crisis in Western Southern and Eastern Europe are leading to a variety of new social movements as a consequence of increased precariousness and also how trade unions are attempting to respond American Democracy

Andrew J. Perrin, 2014-04-10 In this groundbreaking book sociologist Andrew Perrin shows that rules and institutions while important are not the core of democracy Instead as Alexis de Tocqueville showed in the early years of the American republic democracy is first and foremost a matter of culture the shared ideas practices and technologies that help individuals combine into publics and achieve representation Reinterpreting democracy as culture reveals the ways the media public opinion polling and changing technologies shape democracy and citizenship As Perrin shows the founders of the United States produced a social cultural and legal environment fertile for democratic development and in the two centuries since citizens and publics use that environment and shared culture to re imagine and extend that democracy American Democracy provides a fresh innovative approach to democracy that will change the way readers understand their roles as citizens and participants Never will you enter a voting booth or answer a poll again without realizing what a truly social act it is This will be necessary reading for scholars students and the public seeking to understand the challenges and opportunities for democratic citizenship from Toqueville to town halls to Twitter **Challenging Southeast Asian Development** Jonathan Rigg, 2015-07-30 Over the course of the last half century the growth economies of Southeast Asia Indonesia Malaysia the Philippines Singapore Thailand and Vietnam have transformed themselves into middle income countries This book looks at how the very success of these economies has bred new challenges novel problems and fresh tensions including the fact that particular individuals sectors and regions have been marginalised by these processes Contributing to discussions of policy implications the book melds endogenous and exogenous approaches to thinking about development paths re frames Asia s model s of growth and draws out the social environmental political and economic side effects that have arisen from growth An interesting analysis of the problems that come alongside development s achievements this book is an important contribution to Southeast Asian Studies Development Studies and Environmental Studies A Call to Mission - A History of the Jesuits in China 1842-1954 David Strong, 2018-02-12 China has bulked large in the imagination of the Catholic Church for 500 years It had been central to the missionary dream of the Jesuits for almost as long However only with this book s appearance has the detailed focus of attention shifted to the substantial and neglected period of catholic and Jesuit

engagement with China the almost 120 years from the second arrival of the Jesuits Matteo Ricci the polymath Ferdinand Verbeist and Adam Schall von Bell the astronomers and the exquisite painter who influenced Chinese painting beyond measure Giuseppe Castiglione have been written about made us of and been the heart and soul of the first stage of Jesuit impact on China in the 17th and 18th Centuries They brought Western learning and art to China and took Chinese language and literature to Europe The Jesuits were the first multinational to be welcomed in China and they came with a specific method of engagement to make friends build relationships and share their gifts before anything else was transacted including conversations about Christianity It remains an unsurpassed method of engagement with a rich and ancient people But the second arrival from the 1840s was very different It was made possible by the arrival of European governments and traders many of whom came not just for financial gain but to spread their superior religion This work by David Strong in two volumes is the first major treatment of the period from the arrival of the European and eventually American Jesuit missionaries under the protection of the so called Unequal Treaties through to their expulsion after the Communist victory in the long running civil war in 1949 Volume 1 The French Romance traces the people projects expansion and impact of those who provided the predominant Jesuit presence At the height of its engagement with China the French Government has 19 Consulates and attendant military and navy throughout China The French Jesuits were afforded access and protection by their government and activated missions in northern and central China schools seminaries universities parishes retreat houses publications and attracted Chinese nationals to join their number

Projecting Citizenship Gabrielle Moser, 2019-01-11 In *Projecting Citizenship* Gabrielle Moser gives a comprehensive account of an unusual project produced by the British government's Colonial Office Visual Instruction Committee at the beginning of the twentieth century a series of lantern slide lectures that combined geography education and photography to teach schoolchildren around the world what it meant to look and to feel like an imperial citizen Through detailed archival research and close readings Moser elucidates the impact of this vast collection of photographs documenting the land and peoples of the British Empire circulated between 1902 and 1945 in classrooms from Canada to Hong Kong from the West Indies to Australia Moser argues that these photographs played a central role in the invention and representation of imperial citizenship She shows how citizenship became a photographable and teachable subject by tracing the intended readings of the images that the committee hoped to impart to viewers and analyzing how spectators may have used their encounters with these photographs for protest and resistance Interweaving political and economic history history of pedagogy and theories of citizenship with a consideration of the aesthetic and affective dimensions of viewing the lectures *Projecting Citizenship* offers important insights into the social inequalities and visual language of colonial rule

Russia's Cultural Statecraft Tuomas Forsberg, Sirke Mäkinen, 2021-11-04 This book focusses on Russia's cultural statecraft in dealing with a number of institutional cultural domains such as education museums and monuments high arts and sport It analyses to what extent Russia's cultural

activities abroad have been used for foreign policy purposes and perceived as having a political dimension Building on the concept of cultural statecraft the authors present a broad and nuanced view of how Russia sees the role of culture in its external relations how this shapes the image of Russia and the ways in which this cultural statecraft is received by foreign audiences The expert team of contributors consider what choices are made in fostering this agenda how Russian state authorities see the purpose and limits of various cultural instruments to what extent can the authorities shape these instruments what domains have received more attention and become more politicised and what fields have remained more autonomous The methodological research design of the book as a whole is a comparative case study comparing the nature of Russian cultural statecraft across time target countries and diverse cultural domains It will be of interest to scholars and students of Russian foreign policy and external relations and those working on the role of culture in world politics
