**Fifteen Years of Fear** Jared D. Williams, 2018-11-30 The era immediately following World War II is usually remembered as an idyllic period in the United States of America Most people look back at that time as an era of malt shops school dances and innocence In reality the fifteen years following WWII were some of the most dangerous the nation ever faced Lurking in minds of all Americans was the constant fear of a surprise attack from the Soviet Union War with the communist nations of the world appeared to be imminent At this time a new class of leaders emerged to guide the United States The Cold War struggle brought out the best in some and the worst in others Men like Truman MacArthur Eisenhower Nixon McCarthy and Kennedy dominated the headlines and the political landscape This is the story of the opening chapter of the American Cold War story and the men who piloted the ship of state during that most dangerous of times

**Rule of Law and Fundamental Rights** Alfredo Narváez Medécigo, 2015-11-07 This book which

originated from the broadly held view that there is a lack of Rule of law in Mexico and from the emphasis of traditional academia on cultural elements as the main explanation explores the question of whether there is any relationship between the system of constitutional review and thus the law as such and the level of Rule of law in a given state To do so it elaborates a theoretical model for achieving Rule of law and compares it to the constitutional review systems of the United States the Federal Republic of Germany and Mexico The study concludes that the two former states correspond to the model while the latter does not This is fundamentally due to the role each legal system assigns to ordinary jurisdiction in carrying out constitutional review Whereas the US and Germany have fostered the policy that constitutional review regarding the enforcement of basic rights is the responsibility of ordinary courts Mexico has relied too heavily on the specialized constitutional jurisdiction
