Glock Paul M. Barrett, 2012-01-10 Based on fifteen years of research Glock is the riveting story of the weapon that has become known as American s gun Today the Glock pistol has been embraced by two thirds of all U S police departments glamorized in countless Hollywood movies and featured as a ubiquitous presence on prime time TV It has been rhapsodized by hip hop artists and coveted by cops and crooks alike Created in 1982 by Gaston Glock an obscure Austrian curtain rod manufacturer and swiftly adopted by the Austrian army the Glock pistol with its lightweight plastic frame and large capacity spring action magazine arrived in America at a fortuitous time Law enforcement agencies had concluded that their agents and officers armed with standard six round revolvers were getting outgunned by drug dealers with semi automatic pistols They needed a new gun When Karl Water a firearm salesman based in the U S first saw a Glock in 1984 his reaction was Jeez that s ugly But the advantages of the pistol soon became apparent The standard semi automatic Glock could fire as many as 17 bullets from its magazine without reloading one equipped with an extended thirty three cartridge magazine was used in Tucson to shoot Gabrielle Giffords and 19 others It was built with only 36 parts that were interchangeable with those of other models You could drop it underwater toss it from a helicopter or leave it out in the snow and it would still fire It was reliable accurate lightweight and cheaper to produce than Smith and Wesson s revolver Made in part of hardened plastic it was even rumored incorrectly to be invisible to airport security screening Filled with corporate intrigue political maneuvering Hollywood glitz bloody shoot outs and an attempt on Gaston Glock s life by a former lieutenant Glock is at once the inside account of how Glock the company went about marketing its pistol to police agencies and later the public as well as a compelling chronicle of the evolution of gun culture in America
