

NEW ILLUM-DISC SETTINGS

The iLLUM-DISC is compatible with the Solar-Tech and Wireless Solar-Tech systems. (Optional accessories, not included.) Solar-Tech is a patent system that will automatically adjust the iLLUM-DISC controller's watering schedule to automatically daylighting the selected iLLUM-DISC units only.

Setting of Solar-Tech System or Wireless Solar-Tech System

1. Loosen the Green and Black wires from the Solar-Tech system or Wireless Solar-Tech System to the "OFF" wiring terminals on the iLLUM-DISC controller. (It does not matter which wire connects to which terminal.)
2. Turn the controller dial to the "Solar-Tech Settings" position. The display will indicate which system has been set and that will show the default Region (1) on the left and the default Water Adjustment setting (1) on the right.

3. Modify the Region setting to match local conditions by pressing the **▲** and **▼** buttons.

Region 1 = peak (71" - 37") and peak range (61" - 70")

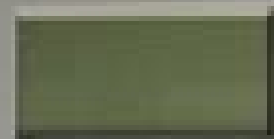

Region 2 = peak (71" - 37") and peak range (61" - 70")

Region 3 = peak (71" - 37") and peak range (61" - 70")

Region 4 = peak (71" - 37") and peak range (61" - 70")

4. Press the Water Adjustment setting at the default value of 1. Allow Solar-Tech to apply watering recommendations for a minimum of 15 days. At the end of the 15 day watering period turn the controller dial to the "Normal Adjustment" position and set the Solar-Tech adjustment value. If the value seems too high for that time of the year, turn the dial to the "Solar-Tech Settings" position and turn to the Water Adjustment value on the right. Increase/decrease the Water Adjustment value and the Seasonal Adjust value is important for the time of the year.

See Hunter's website for more detail on Solar-Tech installation and utilization.
