Collecting for the Curriculum Amy J. Catalano, 2015-09-28

If you're a librarian charged with collecting curriculum materials and children's literature to support the Common Core State Standards, then this book is the only one that offers explicit advice on collection development in curriculum collections. While there are many publications on the Common Core for school librarians and K-12 educators, no such literature exists for curriculum librarians at the post-secondary level. This book fills that gap, standing alone as a guide to collection development for curriculum librarians independent of the Common Core State Standards. CCSS. The book provides instruction and guidance to curriculum librarians who acquire and manage collections so you can develop a collection based on best practices. The book begins with a primer on the CCSS and how curriculum librarians can support them. Discussion of the Standards is then woven through chapters arranged by content area that share research-based practices in curriculum development and instruction to guide you in curriculum selection. Material types covered include games, textbooks, children's literature, primary sources, counseling, and nonfiction. Additional chapters cover the management of curriculum collections, testing collections, and instruction and reference, as well as how to support and collect for special needs learners. Current practices in collection development for curriculum materials librarians are also reviewed. The book closes with a discussion of the future of curriculum materials.

Fall and Recovery Joanne De Simone, 2025-07-30

Special educator Joanne De Simone bears all in this raw and transformative memoir that captures how she used lessons of modern dance in her journey through

motherhood with two children with disabilities When the pediatrician places the measuring tape around her infant's head and notes His head is a little small Joanne knows that motherhood won't be as she had dreamt Even as a special educator Joanne isn't prepared to raise a child with a life-limiting brain malformation Nor is she ready for the compounded pain and alienation that comes when her second son is diagnosed with autism But the struggle to balance her sons medical and educational challenges drives Joanne to reconnect with the lessons she learned as a modern dancer and there she finds enlightenment Inspired by her experience performing Jos Limón's *There Is a Time* based on Ecclesiastes 3 each chapter of *Fall and Recovery* details a dance lesson and the dichotomy of parenting children with disabilities Over time Joanne discovers that surviving motherhood isn't a matter of strength bravery or faith It's a matter of linking your past experiences and creating your own purpose It's realizing that we live simultaneously in love and grief In the end dance teaches Joanne not only how to move freely through pain but also how to fall and recover
