Kumaraswamy, 2021-08-26 This volume brings together established and emerging scholars from academia and think tanks to reflect on important conceptual strategic and developmental issues in India's national security. It provides a comprehensive understanding of national security through a more open approach covering both traditional and non-traditional concerns that have a bearing on the survival and well-being of humanity. It discusses key themes such as perceptions about China, civil-military relations, gender and military, nuclear safety, arms trade and cybersecurity, human security, food and water security, soft power and the media's role in covering security issues. As a festschrift for Commodore C. Uday Bhaskar, it highlights and adds to his scholarly contributions to the national security debate in the country for the past three decades. A unique contribution, this volume will be indispensable for students and researchers of politics and international relations, national security, human security, geopolitics, non-traditional security, military and strategic studies and South Asian studies.

Financial Statistics and Data Analytics Shuangzhe Li, Milind Sathye, 2021-03-02 Modern financial management is largely about risk management which is increasingly data-driven. The problem is how to extract information from the data overload. It is here that advanced statistical and machine learning techniques can help. Accordingly, finance statistics and data analytics go hand in hand. The purpose of this book is to bring the state-of-the-art research in these three areas to the fore and especially research that juxtaposes these three. Brick and Block Masonry Claudio Modena, F. da Porto, M.R. Valluzzi, 2016-11-03 *Brick and Block Masonry: Trends, Innovations and Challenges* contains the lectures and regular papers presented at the 16th International Brick and Block Masonry Conference, Padova, Italy, 26-30 June 2016. In an ever-changing world in which innovations are rapidly implemented but soon surpassed, the challenge for masonry, the oldest and most traditional building material, is that it can address the increasingly pressing requirements of quality of living, safety and sustainability. This abstracts volume and full paper USB device focusing on challenges, innovations, trends and ideas related to masonry in both research and building practice will prove to be a valuable source of information for researchers and practitioners, masonry industries and building management authorities, construction professionals and educators.

Education Strategy in a Changing Society Martin Slattery, 2024-03-04 Placing the UK in a global context, this book engages with the emerging international debate on the future of education in the 21st century. It examines the post-pandemic paradigm shift in educational practice in countries around the world and presents international case studies of emerging future practice. However, while it embraces the global context and the mega-forces therein, it is specifically focused on the challenges for education in England today and the potential strategies for moving forward to the all-inclusive, personalised, smarter and lifelong learning needed for tomorrow. In doing so, it explores how the new curriculum models, new approaches to pedagogy and new educational technology such as AI and even robotics might help to transform education in England, help level up learning and help younger generations cope not only with the future as we know it but also the future that we don't

This book will appeal to policymakers students and scholars interested in the sociology of education education policy international education international development and future studies as well as those with a general interest in Education in the future
